TAMAR BERK – CASHOUT

CATEGORIES
indie pop

Always with the tenderness, but never in a manner that feels like a wallflower incoming and Tamar Berk shows her adeptness at the tumble down melodic sequence ever so eloquently on 'Cash Out's lovely chorus. So not to be underappreciated given its slow and temperate progression for near hidden in there is a mine of melodic greatness that hints at Enya, but which is certainly more indie pop in tone. Subtle as can be, I really can't be without it. *KH*
