@WINDOWS_IN_THE_LAKES

When I founded Windows in the Lakes, the aim was simple: to raise the standard of glazing supply and installation across Cumbria and the Lake District, delivering premium products with genuine care, accountability, and craftsmanship you can trust.

Today, our teams work across the region with one shared commitment: to make every project seamless, transparent, and professionally managed from first enquiry to final sign-off. We provide a complete, end-to-end service that removes uncertainty, simplifies decision-making, and gives homeowners confidence at every stage.

Windows in the Lakes is proudly backed by our national sister company, The Fenestration Network. This gives our customers the best of both worlds: a highly personal, local service, supported by national-scale expertise, proven systems, and refined processes developed across hundreds of projects throughout the UK. That backing brings real advantages, from smarter project management and technical support to stronger purchasing power, greater efficiency, and access to leading UK and European manufacturers at highly competitive rates.

Wherever you are in Cumbria or the surrounding areas, we are here to support you. From your first conversation, you are guided through a structured, highly personal process led by experienced professionals. Our local surveyors and installation teams work closely with you throughout, and you also have the option to visit manufacturer showrooms to experience products in person before making final decisions.

As we continue to grow, Windows in the Lakes is investing in new technology, enhanced project management systems, and advanced design tools. This includes visualisation technology that allows you to see our glazing products superimposed onto your home, helping you make confident, informed decisions before production begins.

I'm proud of the products we specify, the relationships we've built, and the many successful installations completed across the region. Most importantly, I'm proud of the trust homeowners place in us when investing in their property — trust we work hard to earn and protect on every project.

This brochure is here to help you understand both our products and our approach. Whether you're replacing windows, opening your home with sliding or bifolding doors, or planning a complete transformation, our role is to guide you with clarity, expertise, and care.

Thank you for taking the time to explore Windows in the Lakes. We look forward to helping you create something exceptional.

Thank you for considering us for your home.

Tom Evans

Founder, Windows in the Lakes

★★★★★
Customer Google Reviews

“Wonderful company from start to finish! Really competitive price and customer service was outstanding! Full house windows and doors replaced! Their fitter did an amazing job and very tidy! Recommended to all our family and friends! Thanks again!”

-KB ★★★★★

“Such a fantastic company to deal with, they were very professional which put us at ease. We love our new glazing and we would highly recommend Windows in the Lakes to anybody looking for new windows and doors.”

-EL ★★★★★

“We are looking to replace our windows and being quite remote, Tom was so helpful in advising us on what was best for us. We would definitely recommend Windows in the lakes and especially Tom to anyone looking for the right windows for their house.”

-PC ★★★★★

“Exceptionally good company from start to finish Tom and his team made everything so easy, really good products and installation. Would highly recommend”

-MH ★★★★★

“So comforting to have found a company that really understands the whole of the door and window market.

The installation was quick and tidy. My wife was happy so I am happy!”

-AH ★★★★★

OUR WHITE GLOVE SERVICE

"A complete windows and doors service - From advice to aftercare, handled with honesty and precision."

Windows in the Lakes White Glove Service

Choosing new windows and doors is not straightforward. The products look similar, the prices vary, and the promises made by salespeople can leave you wondering who to trust. Many companies will tell you what you want to hear, but few will give you clear, honest, and knowledgeable guidance you actually need.

That's why we created Windows in the Lakes White Glove Service - a personal, start-to-finish service designed to take away uncertainty and give you complete confidence. We are a window company that operates differently. We don't send out sales reps who won't leave your home without a deal or operate too-good-to-be-true discounts if you commit. Instead, we partner with you. We find out what you need, work closely with you, understand your home, and provide glazing solutions that you'll love and are the best for your project.

Why we work differently

We've seen how the industry often works. Some installers don't have a showroom yet still want to compete with larger companies. Others are tied to a single supplier or system, limiting what they can offer. Homeowners end up with fewer options, conflicting advice, and products that aren't always the best match for their property.

We decided there was a better way....

Windows in the Lakes is owner-managed and independent. We are small enough to care about every project but experienced enough to handle even the most complex installations. Our approach is simple: we put you first. That means clear communication, honest advice, and workmanship via a transparent supply chain you can rely on.

A small business with a big difference

We're not a faceless brand. We're a small, owner-managed family business that treats every project as if it were our own home. That personal touch is what sets us apart. You'll always know who you're dealing with, and you'll never be left in the dark. By choosing Windows in the Lakes, you're choosing more than just new windows and doors. You're choosing peace of mind, backed by national expertise and local installation teams who know your area.

At a glance...

Independent advice -

No pushy sales, no bias, just clear guidance.

Expert Installation -

Carried out by trained local installers.

Attention to detail -

Colour-matched cills, hardware, and finishes.

Trusted brands -

Carefully chosen UK & European manufacturers.

Full compliance -

Building Regulations, safety glass, trickle vents and more.

Personal Service -

Owner-managed, honest, and accountable.

Professional Survey -

Every detail checked before manufacturer.

Seamless process -

From first conversation to aftercare

Peace of mind -

Support long after installation is complete.

Our Process

Our process is designed to remove uncertainty. Every step is structured, digitally managed, and professionally checked — ensuring accuracy, accountability, and clarity from first enquiry to long after installation.

1

Share your project ideas and plans with us, and we'll guide you to the most suitable products from our carefully curated portfolio.

2

We then prepare a comprehensive supply, survey, and installation quotation, clearly outlining product specifications and installation guarantees.

3

Confirm your decision to proceed with us, formally placing the order and securing your project within our delivery schedule.

4

Complete our quick digital pre-survey form to capture key project details.

5

Our experienced survey teams attend to complete a comprehensive professional survey of your property.

6

All measurements and technical drawings are reviewed and validated by our technical team to ensure accuracy and compliance.

7

We issue a Final Configuration Plan for your review and formal approval prior to production.

8

Once approved, the order is formally released into production with our manufacturing partners.

9

We coordinate delivery and installation to ensure correct sequencing, site readiness, and a smooth, efficient installation process.

10

Our experienced installation teams attend to deliver a professionally managed installation to the approved specification.

11

Upon completion, our installation team conducts a full walkthrough with you and completes a digital customer sign-off, confirming the installation meets specification and quality standards.

12

Your installation guarantee period begins - Once complete, your project enters our aftercare and guarantee period — with continued support from the same team who managed your installation.

Every project is managed through our fully integrated digital platform, bringing surveys, technical checks, configuration approval, scheduling, and sign-off into one controlled workflow.

“Capturing Windows in the Lakes” -Aerial Drone Footage

We produce high quality, aerial drone footage of our prestigious residential projects across the Lake District and Cumbria, **showcasing how we can help homeowners to make their glazing visions come to life.** Our non-invasive drone operator will capture the project beautifully and from the property's best angles.

Completing a full house build or stunning extension?

Why not ask about joining our “Capturing Windows in the Lakes” scheme and **receive a discount off your final project price**; just a little something from us to say thank you for allowing us to showcase your projects to help future homeowners see what is possible in glazing.

Full House of Heritage Windows and Doors - Spring 2025

Internal Aluminium Doors (ID30)

Slim sightlines for a Heritage look.

**Internal ID30
Bifold Doors**

**Internal ID30
Hinge Doors**

**Internal ID30 Sliding
Doors**

INTERNAL ALUMINIUM DOORS ID30

(JACK ALUMINIUM)

Designed for internal applications.

ID30 Internal Door and fixed glazing system is the ideal product for creating bespoke glazed interior partitions, dividers or walls of glass, which separate spaces whilst maintaining optimum levels of natural light and an open-plan living aesthetic.

Utilising one door profile across the suite allows for the creation of hinged, sliding and bi-folding configurations thus allowing for design-continuity across your project with the ultimate functionality.

ID30 can be utilised to create fixed glazed screens, with a range of inset door options for easy access between spaces.

ID30 offers the ideal solutions to create separation between kitchen, living and dining areas where a heritage or contemporary aesthetic is required and the system excels in partition offices, studios or entrances in commercial applications.

Unlike other options on the market, ID30 is a unique system designed specifically for the internal slim line market.

TECHNICAL PERFORMANCE

- ✓ Fixed frame profile height: 30mm
- ✓ Door profile height: 57mm
- ✓ Compatible with a range of single glazed options up to 10mm

Max sizes:

- ✓ Single hinged door - 1000mm (W) x 2600mm (H)
- ✓ Double hinged door - 2000mm (W) x 2600mm (H)
- ✓ Single sliding door - 1200mm (W) x 2600mm (H)
- ✓ Double sliding door - 2400mm (W) x 2600mm (H)
- ✓ Bi-fold door (per pane) - 820mm (W) x 2600mm (H)

ID30 INTERNAL GLAZED SCREENING SYSTEM KEY FEATURES

- ✓ A 'true' internal glazing system - expertly engineered for internal applications
- ✓ Ideal for both domestic and commercial projects
- ✓ Full range of door configuration options using a single system
- ✓ Soft-close and soft-open options
- ✓ Lock solutions available
- ✓ Easy fabrication
- ✓ Easy Installation
- ✓ Concealed hinges
- ✓ Minimal sightlines

Glazing Maintenance Guide

Full Cleaning & Care Guide

GENERAL CARE PRINCIPLES (ALL ALUMINIUM PRODUCTS)

USE:

- Warm Water + pH-neutral detergent
- Microfiber cloths
- Silicone-based lubricant for tracks

AVOID:

- Abrasives
- Solvents or bleach
- High-pressure washers
- WD-40 or oil-based lubricants

SLIDING DOORS:

- Frames & Glass: Clean with mild soapy water
- Tracks: Vacuum debris, wash, dry, apply silicone spray lightly
- Seals: Warm soapy water only

BIFOLD DOORS:

- Frames & Glass: Mild soapy water
- Hinges: Light silicone every 6 months
- Bottom track: Vacuum, clean, silicone spray
- Seals: Warm soapy water only

ENTRANCE DOORS:

- Frames & Glass: Mild soapy water
- Hardware: Mild soap only; light silicone on latches every 6 months
- Seals: Warm soapy water only

ALUMINIUM WINDOWS:

- Frames & Glass: Mild soapy water
- Friction Hinges: Light silicone on pivots only
- Loks: Light silicone every 6 months
- Drainage slots: Check every 3-6 months

FREQUENCY:

- External: Every 1-3 months
- Internal: Every 3 months
- Moving Parts: Every 6 months

WEATHER SEALS & GASKETS:

- Warm water + mild detergent only
- Avoid chemicals
- Check seating every 3-6 months

ROUTINE MAINTENANCE SCHEDULE (DETAILED):

- External frame cleaning: 1-3 months
- Internal frame cleaning: 3 months
- Track vacuuming: Monthly
- Lubrication: Every 6 months
- Drainage checks: Every 3-6 months

IMPORTANT NOTES:

- Regular light cleaning is preferred.
- Abrasives damage coatings
- Tracks must remain free from grit
- Only use silicone-based lubricants
- Report operational issues promptly
