★★★★★
Customer Google Reviews

“Wonderful company from start to finish! Really competitive price and customer service was outstanding! Full house windows and doors replaced! Their fitter did an amazing job and very tidy! Recommended to all our family and friends! Thanks again!”

-KB ★★★★★

“Such a fantastic company to deal with, they were very professional which put us at ease. We love our new glazing and we would highly recommend Windows in the Lakes to anybody looking for new windows and doors.”

-EL ★★★★★

“We are looking to replace our windows and being quite remote, Tom was so helpful in advising us on what was best for us. We would definitely recommend Windows in the lakes and especially Tom to anyone looking for the right windows for their house.”

-PC ★★★★★

“Exceptionally good company from start to finish Tom and his team made everything so easy, really good products and installation. Would highly recommend”

-MH ★★★★★

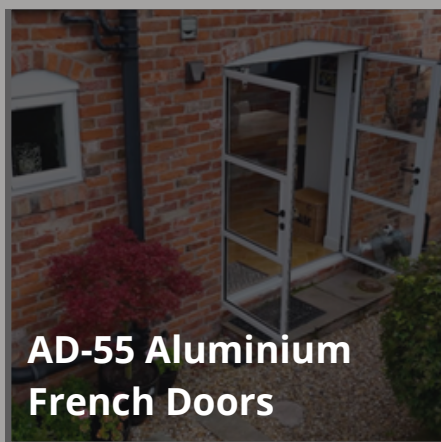

“So comforting to have found a company that really understands the whole of the door and window market.

The installation was quick and tidy. My wife was happy so I am happy!”

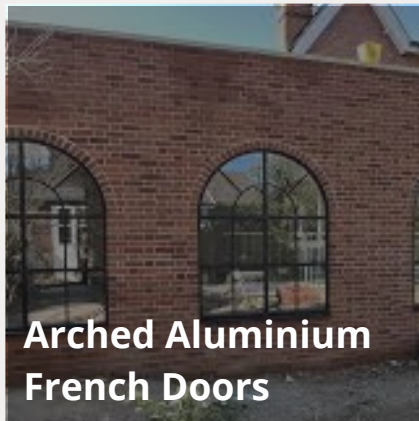

-AH ★★★★★

AD-55 HERITAGE FRENCH DOORS

(SMARTS SYSTEM)

Safe. Secure. Elegant.

The refined and bespoke look of steel-inspired or Art Deco-style glazing and unique in the UK market.

Unique Heritage Door: Up to 3 Metres.

The AD-55 Artisan Door redefines design with its impressive height (up to 3m), but also solves a key issue in tall doors: bowing at the top. This is a high-performing door suitable both for residential and commercial/retail properties. It has an attractive panelled design featuring either single or double doors that can be opened inwardly or outwardly. The AD-55 Artisan Door gives you something no other UK-made aluminium system can: tall, uninterrupted steel-look doors up to 3 metres high, without the 2.2m restriction of other brands. This is a door designed around modern living - combining elegance, strength and freedom of design.

AD-55 Heritage French Doors | Tall Aluminium Steel-Look Doors UK

The AD-55 is ideal when you want the dramatic height and presence of tall French doors while maintaining a heritage or industrial aesthetic: Use Cases Include:

- Grand Entrances / conservatory connections
- Slimline / full height glazing schemes
- Heritage renovations where modern performance is required
- Lake District and North West coverage - we manage surveys, supply, installation and finishing
- Our "White Glove" service ensures flawless results: full project oversight from start to finish

NO BETTER STEEL-LOOK DOOR

UK-First. Capable of door leaves up to 3 Metres, this is the door that fills the opening without breaking the line - bold, clean, and beautifully proportioned, authentic.

STEEL LOOK, LESS COST

The same refined aesthetic without the steel price tag - and without compromising on quality or performance.

FOR THE ENTIRE HOME

Use it as a front door, side or patio door, even internal doors. All with matching styling, sightlines and optional side or top panels. Same look, inside and out in your home.

SAFE AND SECURE

Extensively tested and sealed, whatever the weather and security tested to PAS24 for peace of mind.

FULLY GLAZED OPTION

An optional, suspended lock body, seamlessly joins the glass giving you a fully glazed door with no bars. And it's also the slimmest patio door too. Simply beautiful.

GENUINE INDUSTRIAL STYLE

The AD-55 door is available in a huge range of RAL colour options - with 7016M Grey and 9005M Black being just some examples - which enhance the slim sightlines and architect-design feel of the door. There is also a choice of glazing bars to suit your style.

NO BETTER INDUSTRIAL STYLE DOOR

This is the door that lets you keep your opening height, your design and your vision - without having to settle for less. Safe, secure, elegant and Building Regulations compliant.

PRODUCT REVIEW

AD-55 HERITAGE FRENCH DOORS - TALL, ELEGANT & BUILT TO IMPRESS

Steel-look and heritage glazing has become one of the most desirable design features in modern homes — combining classic Art Deco proportions with contemporary performance. The AD-55 Heritage French Door, also known as the Artisan Door, takes this look further than any other aluminium system available in the UK.

Capable of reaching an incredible 3 metres high, these doors fill every inch of the opening with glass and light. No bulky toplights. No design compromises. Just slim, balanced, perfectly proportioned French doors that look exceptional in any setting. Above all, they give you all the styling of classic steel doors, without the additional cost and lengthy lead times.

Why choose AD-55 Heritage French Doors?

The AD-55 Heritage French Door is based on the UK's most successful steel-look, industrial and Art-Deco door and window system in the UK. However, our close manufacturer relationship means, we've been able to take an already near-perfect system even further. Where most doors max out at 2100mm high or 2400mm high, AD-55 heritage door are capable of an impressive 3000mm high.

The only other comparable product that can reach this height is a genuine steel door. This impressive height retails the authentic steel look and stepped heritage detail that makes this style of glazing so iconic. At the same time, it benefits from re-engineered, reinforced and highly engineered premium-grade aluminium in your home.

A HERITAGE BY WINDOWS IN THE LAKES, DESIGNED FOR EVERY SPACE

The versatility of the AD-55 Heritage French Door, expertly fitted by Windows in the Lakes, makes it suitable for almost any location in your home.

- As a front door – striking, modern and secure with the distinctive steel look.
- For patios or terraces – connect indoor and outdoor spaces with elegance.
- Inside the home – create stylish internal partitions or room dividers using matching slim- frame doors.
- A choice of door options, including hinged, pivot, sliding or stacking.

Whichever option you choose, the proportions remain beautifully consistent across all applications, creating a cohesive look throughout your property.

ARCHED ALUMINIUM FRENCH DOORS

(SMARTS SYSTEM)

What are “Arched Aluminium French Doors”

French doors are typically a pair of hinged doors with large glazed panels that open in-or outwards. They are often used for patios, gardens or inside partitions.

When these doors are built using aluminium, the frames are light, strong and capable of holding large glass panels while keeping the frame slim and discrete.

If the door frame (and often the glass) has a curved or arched top - instead of a plain rectangular shape - the result is an arched aluminium French door. These combine the classic French-door design, modern material benefits, and a more distinctive, architectural look.

Because aluminium is highly flexible and formable, it can be shaped into arches or other bespoke forms.

Choosing an arched version of a French door adds aesthetic and architectural appeal - the curved lines draw the eye, give a sense of grandeur or softness (depending on style), and can help a home stand out or match traditional/heritage architecture while retaining modern performance.

EDGE CUT SLIMLINE ALUMINIUM FRENCH DOORS

(SMARTS SYSTEM)

What are “Edge Cut Slimline Aluminium French Doors”

25mm Premium Slimline Steel Look Door

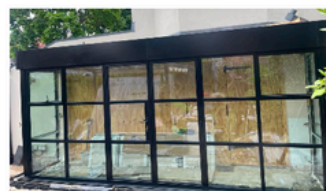

Profile width: 25 mm ultra-slim sash

- Aesthetic: Closest match to classic steel with minimal sightlines
- Glazing: Optimised for slimmer double-glazed units
- Best for: Design-led projects prioritising a steel-like look and maximum light
- Performance: High thermal efficiency and PAS24-ready hardware options

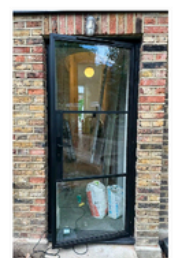

An upgrade from the AD-55 Heritage French Door, the Edge Cut door offers slimmer horizontal sightlines to truly achieve that coveted steel look.

AW-47 CASEMENT HERITAGE WINDOWS

(SMARTS SYSTEM)

Image features AW-47's in an Extension;
Carlisle, December 2025

Authentic Steel-look aesthetics with slender frames.

The AW-47 Aluminium Casement Window is the perfect complement to our AD-55 artisan door. With its slim frame and outstanding thermal properties, the AW-47 window can be either side hung or top hung and is suitable for residential and commercial projects.

The AW-47 is a slimline, heritage style aluminium window system designed to replicate traditional steel windows (e.g Art Deco/Crittall Style), while delivering 21st-Century performance. With slim profiles, optional glazing bars and authentic styling, it is ideal for character properties, listed buildings, barn conversions, warehouse conversions and modern urban schemes.

The AW-47 Aluminium Casement Window offers a sleek, contemporary look with excellent thermal and security performance. Whether you're choosing windows for a modern extension, full renovation or a new build, AW-47 gives you slim sightlines, strong weather protection, and reliable everyday functionality. Built-to-last, strong, reliable and beautiful, expertly-crafted and promising to transform the look of any style of home.

SLIMLINE PROFILE

The AW-47 casement window has an attractive slimline profile, giving you more glass and less visible frame. You can design your window as a fixed picture window, side or top openers, tilt and turn windows or combine fixed and opening elements.

EXCELLENT THERMAL PERFORMANCE

With a U-value of just 1.5W/m²K (using sealed unit 1.0W/m²K the AW-47 offers superb energy efficiency all year round and is Building Regulations compliant depending on the glass specification chosen.

STRONG AND WEATHER RESISTANT

The AW-47 casement window has been extensively tested for wind and water resistance. Seals, gaskets and brushes securely seal your windows shut, keeping out the worst of the British weather.

PROVEN SECURITY

The AW-47 casement window has a high level of security and has been tested to PAS24:2016 standards, demonstrating its resistance to attack from would-be intruders. Multipoint locking, key locking handles, fire-escape hinges and child restrictors are available.

COLOUR OPTIONS

The AW-47 casement window is available in two handsome colour options - 7016M Grey and 9005M Black - enhancing its slim sightlines and architect-designed aesthetic. The full RAL colour range is also available on reliable manufacturing and delivery times.

EASE OF INSTALLATIONS

Suitable for a variety of uses including residential, retail/commercial and hospitality, the AW-47 casement window is easy to install and offers several configurations.

Why choose AW-47 Heritage Windows?

- **Steel-look aesthetic** without the cost or thermal penalty of steel
- **Ideal for conservation style properties**
- **Slim frames & large visible glass area** for extra light
- **Customisable glazing boards & configurations**
- **Durable and low maintenance** aluminium build
- **Thermally efficient** - compliant with current Building Regs
- **Matching door systems available** for design continuity

Made from premium-quality aluminium,, your AW-47 windows are built to stay strong and stable, whatever the weather. The slimline frame gives you more glass and less bulk - perfect for letting in natural light while keeping a clean, architectural look. Choose from two popular colours (7016M Grey or 9005M Black), or go for any RAL colour with reliable lead times. You also have the option for dual colour finishes, so you can match your window frames to both exterior and interior of your home.

Art Deco Handle

Standard window Handle

Monkey Tail Window Handle

FEATURES & BENEFITS OF AW-47:

Thermal Performance

With U-values from 1.4W/m²K (using suitable double or triple glazing), the AW-47 helps reduce heat loss and keep your home more energy efficient. Seals, gaskets, and thermal breaks work together to manage heat transfer, cut draughts and maintain a consistent indoor temperature.

Customisation Options

You can configure your AW-47 windows to suit your space. Choose from fixed panes, side or top openers, or combine multiple panels for larger openings. Add fire escape hinges, child restrictors, or enhanced glazing options for improved thermal or acoustic performance. Handles styles and finishes off you even further choice can be selected to suit either traditional or modern homes. AW-47 premium windows give you full control over the appearance and functionality of your new window.

Home Protection

Tested to PAS24:2016 standards, the AW-47 provides reliable security with multipoint locking, key-lockable handles, and optional safety features such as laminated or obscure glass where needed. The aluminium frame is strong which offers a rigid, tamper-resistant structure, while the locking hardware is designed to resist forced entry. Whether installed at ground level or higher up, you can rely on these windows to protect your home.

PRODUCT REVIEW

AW-47 HERITAGE WINDOWS - SLIM, SECURE AND PERFECTLY MATCHED TO HERITAGE DOORS

Giving you arguably the most authentic steel-look, industrial, Art-Deco or Scandi Style, AW-47 Heritage Windows brings together timeless design and advanced aluminium engineering. Super slim, elegant, and beautifully proportioned, these distinctive windows with the iconic grid pattern of period metal windows are unmatched. And you can complement them with the AD-55 Heritage single or French Door, giving your home a cohesive, steel-look inside and out.

Built from premium-grade aluminium, with a deep thermal break and high-specification insulated double or triple glazing, AW-47 windows promise the durability, efficiency and strength you want for your home or new extension. Balanced and symmetrical sightlines effortlessly recreate the refined style of classic steel windows, but with none of the maintenance or cost, nor the lengthy manufacturing times.

Modern performance, classic proportions

The AW-47 balances traditional styling with cutting-edge performance. Its slim aluminium frame enhances natural light and creates a subtle industrial aesthetic that feels at home in both contemporary and period settings.

Depending on the installation requirements, there's a choice of slim, standard or deep outer frames as well as slimline frames for windows fitted within existing stone or timber mullions.

Each window is thermally broken with a deep polyamide thermal break. With double or triple glazing options, each with a soft-coat low-emissivity coating, warm-edge spacer bars and argon gas fill, these are also some of the most energy-efficient windows and doors

BESPOKE STEEL-LOOK ALUMINIUM WINDOWS FOR YOUR HOME

Every AW-47 window is bespoke-made to suit your design and property layout.

Choose from:

- Fixed picture windows to frame a view and floor-to-ceiling glazing
- Side or top-opening casements for ventilation
- Tilt-and-turn options for versatility and easy cleaning
- Dual colour finishes to complement your interior and exterior schemes
- Bay, bow or shaped windows
- Contemporary or period antique window handles: standard finishes include - 7016M Grey and 9005M Black, but over 200 RAL colours and textured coating are available - each professionally applied for long-term durability.
