# Fusion Hair Extension MAINTENANCE

## WASH YOUR HAIR

Wash with the pads of your fingers in a downward motion, gently getting around the attachment area. Wait 48 hours after application to shampoo!

## AVOID CONDITIONER

Avoid conditioner on your attachment area, focus on the ends.

## NEVER GO TO SLEEP WITH WET HAIR

You can create matting and make your extensions get a mildew smell at the root. Sleep with your hair in a braid.

## HEAT TOOLS!

Flat irons/curling irons **MAKE SURE** to apply below your extension attachment!

## SUNSCREEN

Only use a MINERAL BASED SUNSCREEN. Any use of a sunscreen that is not mineral based will turn the extensions a "pink-orange" color. The 2 ingredients to stay clear of when picking a sunscreen are: Avobenzone & Octocrylene.

## BRUSH 2 TIMES A DAY

Use a Boar Bristle Brush while securing your hair with the opposite hand to prevent tension on the roots. BRUSH 2X a day from ROOTS to ends. Brushing the extension attachment at the root is the most important. It will ensure you don't get matting.

## SALT WATER + POOLS

Always wet your hair first, and it's best to apply conditioner before you enter the water. After swimming, make sure to rinse off the chemicals immediately and blow-dry your extensions to prevent your hair from staying wet for too long. I advise against submerging your hair too frequently.

## EXTENSION LOSS

Extension loss is <sup>100</sup> normal. We shed 50 to 150 hairs per day naturally. You can expect losing a couple strands of keratin or less hair attached to your method. That's why proper maintenance is key so you never let the hair dwindle down to too little hair for the weight of the extension attachment. It will compromise your natural hair.

## RECOMMENDED PRODUCT

Shampoo and conditioner play a crucial role in maintaining your hair extension investment. Opt for sulfate-free products for the best results. Incorporating an oil or leave-in conditioner is essential, and dry shampoo can be quite beneficial. Always choose high-quality hair care brands that are recommended by your trained hair extension expert.
