Option 1:

Placing a Basketball/Pickleball half court on one of the courts and making the other half into an outdoor landscaped area (with low maintenance, using rock with appropriate drainage path).
Creating a sand volleyball court on the opposite court with an outdoor area (with grill).

Option 2:

Let it become a natural area without any courts or continued improvements. Spend money to clean up the space and then leave it alone.

Option 3:

Rebuild complete courts for basketball and tennis. Keep in mind this will take much more money and much more time.
