

General Data Protection Regulation (G.D.P.R) delivered at JDI sites.

Presented by: -
JDI Computer Services Ltd

- JDI Computer Services has designed a series of presentations to assist customers in understanding the implications of the EU General Data Protection Regulation which takes over from the Data Protection Act 1988 on 25th May 2018.
- All companies require to carry out a specific investigation and implementation exercise: there is no 'off the shelf' solution to GDPR. This is the intention behind the regulations, so engagement by all concerned is critical to becoming and remaining compliant. This should have been completed **prior** to **25th May 2018**.
- Irrespective of whether the United Kingdom remains within or leaves the European union the GDPR will apply as it will be enshrined in UK law.
- JDI Computer Services is here to help simplify and assist your company to understand the GDPR implications. We also help you prepare for the changes your business required to adapt to become and remain compliant with the regulations. Our presenter has over 34 years IT experience, including 20 years working with the Data Protection Act so we bring knowledge & experience in what we present.

- In the Presentation your company will learn about the background and scope of the EU data protection legislation, individual components and the penalties that can be levied for breaches of the GDPR.
 - GDPR Terminology
 - The Data Protection Fee
 - The Purpose and Impact of GDPR
 - The Six (6) Principles set out in the GDPR
 - Data Protection Officer (DPO)
 - Data Subjects
 - Consent
 - Business-to-Consumer (B2C) Email Marketing & Business-to-Business (B2B) Email Marketing
 - Telephone Preference Service (TPS), Corporate Telephone Preference Service (CTPS) and TPS Protect
 - UK ban on nuisance calls from claims companies.
 - Marketing Rules
 - Easy ways to beat Identity Theft
 - Information Security
 - Security and privacy features of Microsoft Office 365
 - GDPR - ICO - Risk Assessment
 - Fines and Penalties
 - JDI Services & Further Information

All presentations are delivered from our JDI premises. We generally limit the sessions to between 7 and 10 people. We provide stationary (as required) as well as refreshments. After the session we provide a electronic version of the presentation & other useful information on a USB stick. The session takes approximately 2 – 2.5 hours (depending on the questions)

For more information then email us at gdpr@jdicomputerservices.com or ring us on 01772 704043 / 078899 48484 with your requirements and we will get everything arranged.
