FREE - General Data Protection Regulation (G.D.P.R) training delivered at your location.

Presented by:

Paul Johnson (Dr.Sc. Information Technology)
Managing Director – JDI Computer Services Ltd

- JDI Computer Services has designed a series of presentations to assist customers in understanding the implications of the EU General Data Protection Regulation and the Data Protection Act (2018) which took over from the Data Protection Act (1988) on the 25th May 2018.

- All companies require to carry out a specific investigation and implementation exercise: there is no 'off the shelf' solution to GDPR. This is the intention behind the regulations, so engagement by all concerned is critical to becoming and remaining compliant. This should have been completed *prior* to **25th May 2018.**

- Irrespective of whether the United Kingdom remains within or leaves the European union the GDPR will apply as it will be enshrined in UK law.

- JDI Computer Services is here to help simplify and assist your company to understand the GDPR implications. We also help you prepare for the changes your business required to adapt to become and remain compliant with the regulations. Our presenter has over 34 years IT experience, including 20 years working with the Data Protection Act so we bring knowledge & experience in what we present to you and your staff.

- During our GDPR presentation your company will learn about the background and scope of the EU data protection legislation, individual components and the penalties that can be levied for breaches of the GDPR.

  - **GDPR Terminology**
  - **The Data Protection Fee**
  - **The Purpose and Impact of GDPR including the Six (6) Principles set out in the GDPR**
  - **Data Protection Officer (DPO**)
  - Data Controller / Processor 'Data Breach' reporting
  - **Network and Information Systems Directive (NISD)**
  - **Data Subjects**
  - **Consent**
  - Business-to-Consumer (B2C) Email Marketing & Business-to-Business (B2B) Email Marketing & **Marketing Rules**
  - **Nuisance Calls from personal claims companies**
  - **Corporate Telephone Preference Service (CTPS), Telephone Preference Service (TPS)** and **TPS Protect**
  - **Easy ways to beat Identity Theft, Dos and Don'ts for using Public WIFI**
  - **Security and privacy features of Microsoft Office 365**
  - Information Security
  - **GDPR - ICO - Risk Assessment**
  - **ICO Fines and Penalties**
  - **JDI Services & Further Information**

All presentations are delivered on customer premises. We don't limit the number of people attending (but we recommend not exceeding 15). We bring a projector and all the equipment required to deliver the session. We also give you a electronic version of the presentation at the end of the presentation, as well as useful documentation.

We introduce you to the Risk Assessment that the ICO recommends that you carryout. Our company offers this as a paid service, along with out Policy & Procedure creation service.

For more information then email us at gdpr@jdicomputerservices.com or ring us on 01772 704043 / 078899 48484 with your requirements and we will get everything arranged.
