

Boucher Family Farm Puppy Reservation Deposit Explained

We allow in-person visits by potential parents only if we do not have expecting moms or puppies under 7 weeks old on the premises. We also offer FaceTime, Zoom, video, pictures, and voice calls.

Once puppies arrive, we send pictures and videos and provide weekly updates to families on our reservation deposit list.

We start puppy visits for families on the reservation deposit list between 6-7 weeks to meet puppies and choose your new family member.

Boucher Family Farm does not take gender-specific deposits.

Once a reservation deposit is received, you finalize your place on the list, meaning:

1st deposit reservation gets first choice of the litter; 2nd deposit reservation gets 2nd choice, etc.

If you have specific preferences:

- Tail left long – you must be first on the list, with payment made in full on the day of birth.
- For male/female, service dog traits, and protection dog traits, it is best to be as high on the reservation deposit list as possible.

We ask that all potential families wanting to leave a reservation deposit visit our website and read the available copy of our contract.

Once we confirm you understand this process, we will proceed with the steps for leaving a reservation deposit.

Reservation deposits can be made without fees via Zelle (303-875-3407 - Anthony Boucher), cash, or check (your place in line is secured once the check has cleared). Credit cards, PayPal, and Venmo all have transaction fees attached.

Once a reservation is received and confirmed, we will ask for the following information to be sent via text/email to fill out the puppy contract:

- Name
- Phone numbers
- Emails
- Physical address where puppies will reside

The contract will then be sent to you for e-signature through the email you provide.
