The Responsible Solution

The tile look includes fabric, painted steel, fabric acoustical/tackable, perforated steel, glass, markerboard, laminate, veneer, slat-wall, and open frame

Same metal to metal panel connecting system as System 2000.

System 2000 Enhanced is an upgrade of the original System 2000 monolithic panel. This system includes all the expected qualities of 2000, plus additional panel flexibility and aesthetics.

System 2000 Enhanced offers the look of a tile system, but the install of a monolithic system.
