

TIMES-2 SPEED FILES®

WORK SPACE HERO:

More Storage Space
More Work Space
More Space Options

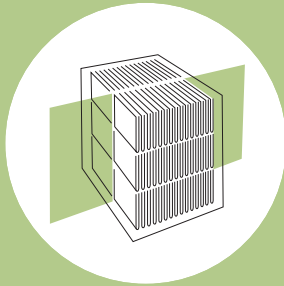

TIMES - 2 SPEED FILES®

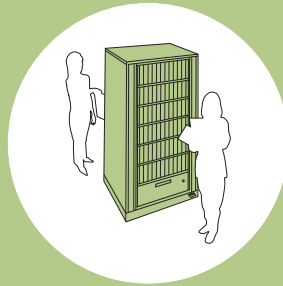

The rotating design of Times-2 Speed Files means that more storage space is just a spin away.

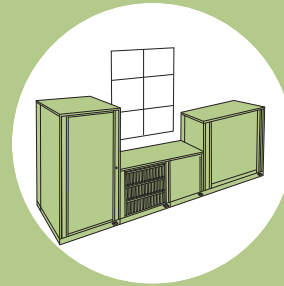

BRINGING WORLDS TOGETHER

A double depth design lets you store twice as much as traditional lateral filing cabinets.

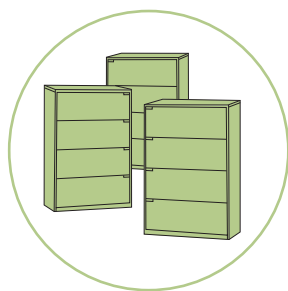

The rotary design gives you fast and easy access from one or both sides of the unit.

Our exclusive Interconnect* feature lets you connect cabinets of variable heights to use space that might be wasted, such as underneath windows.

*Patent Pending

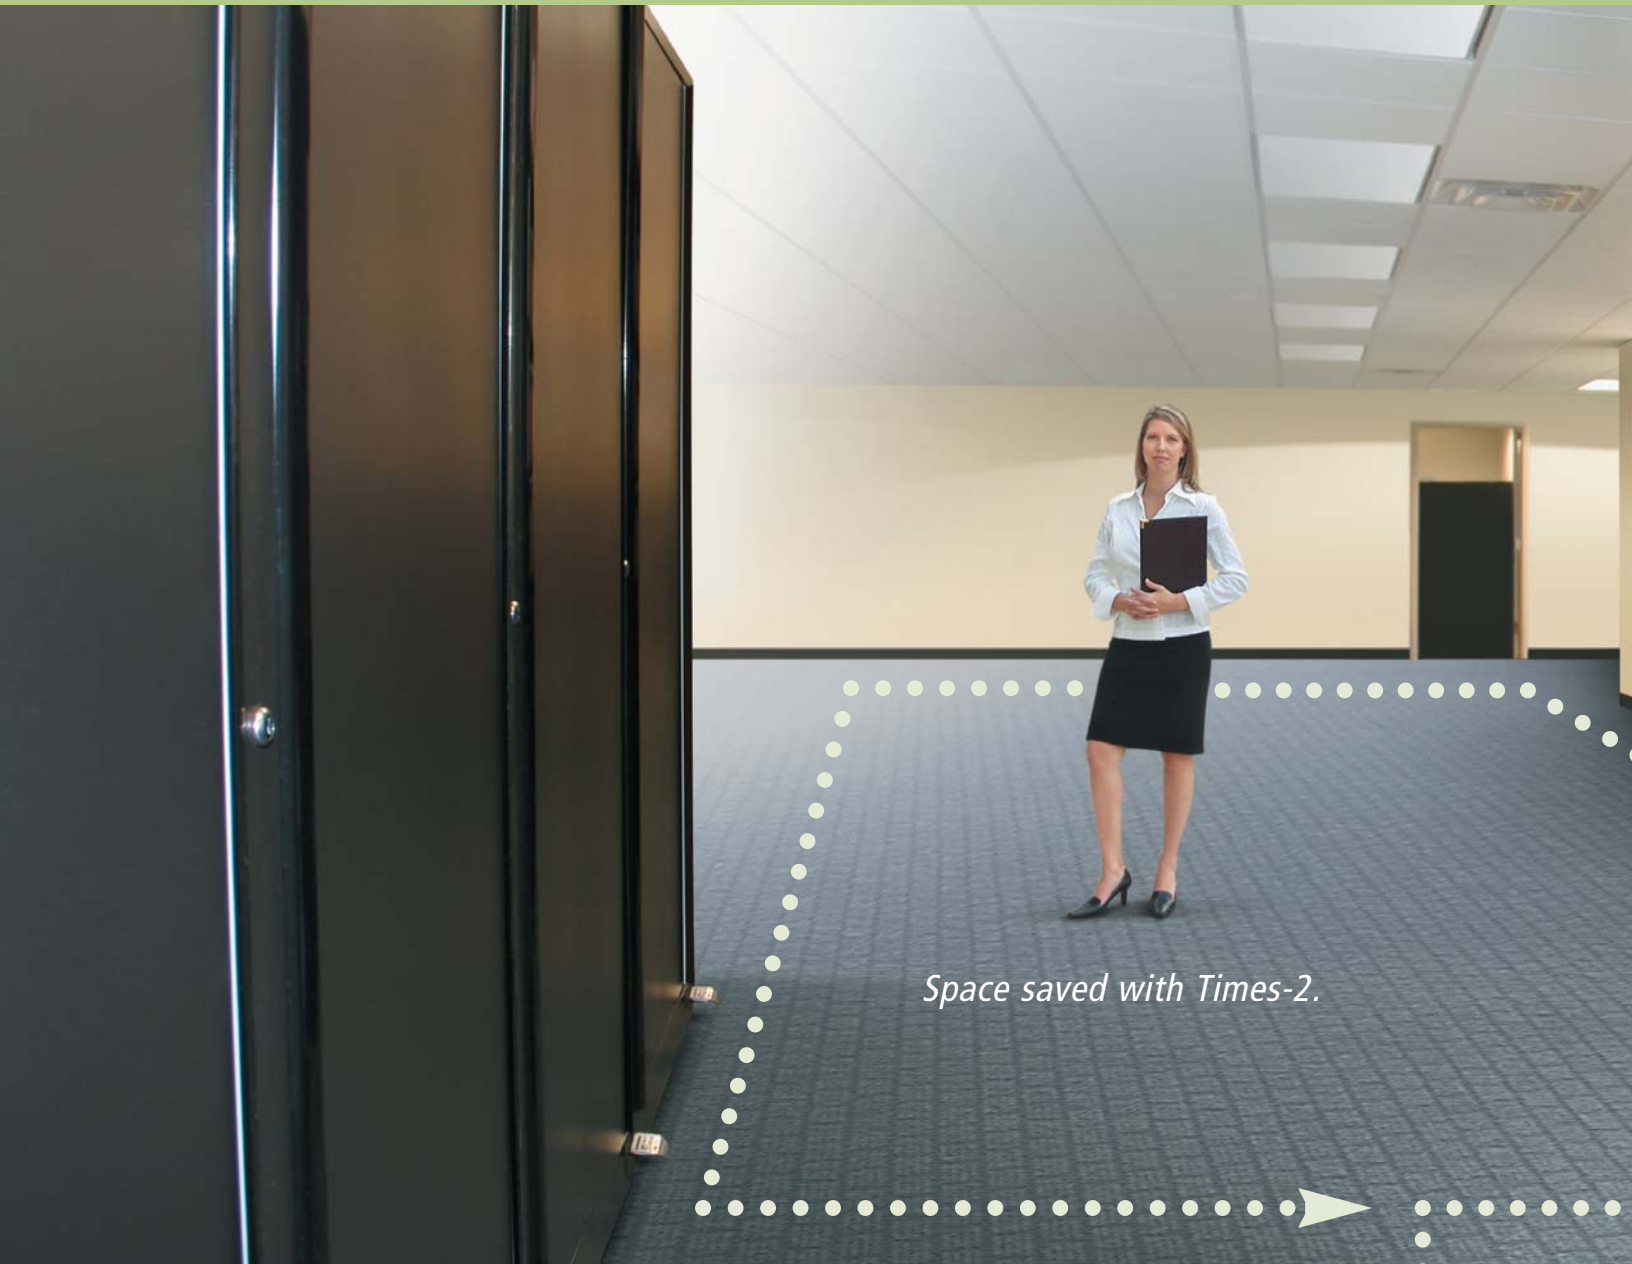

Trying to fit a world of information into traditional filing systems is a frustrating task. That's why we've developed Times-2 Speed Files, a compact storage system that rotates for fast access from either side, and gives you double the depth for more multimedia storage.

A single 7-tier Times-2 Speed File gives you more filing capacity than three traditional lateral files, so you can store more information and save floor space at the same time.

TIMES-2 SPEED FILES®

Space saved with Times-2.

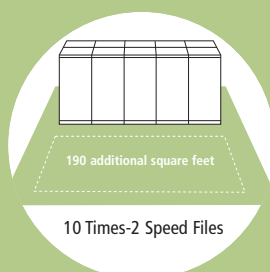

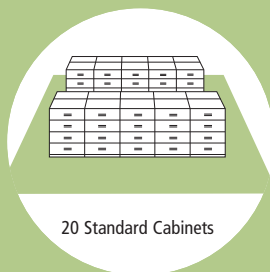

Utilize your space wisely.

Compared to standard filing systems, Times-2 Speed Files can greatly reduce the amount of square footage required. This space savings can be used for additional workstations, more storage, or whatever fits your particular business or office needs.

MORE SPACE TO PLAY WITH

Explore your options. Times-2 Speed Files make the most out of limited floor space.

With Times-2™, it all adds up.

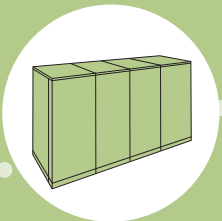

In the same room, 20 four-drawer lateral cabinets give you 3,200 filing inches. With Times-2 files, ten 7-tier units give you 3,360 filing inches in half the space. You gain an additional 190 square feet and more storage too!

With Times-2 Speed Files you gain 190 square feet.

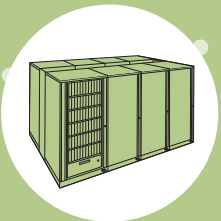

TIMES - 2 SPEED FILES®

MORE ROOM TO GROW

When you have to make the most out of limited floor space, Times-2 Speed Files let you explore new options — with space to spare.

TIMES-2 SPEED FILES®

MORE COLORS AND DESIGNS

All the features of Times-2 come together to give you a galaxy of choices. We have the widest color selection in the industry and the largest selection of colors (eight) on our Xpress program. Times-2 Speed Files are also available in a variety of finishes, ranging from 26 elegant colors to unlimited custom colors, to create the look you want, or to blend with the space you already have.

Elegant Fabric Overlays

Design Options

Overlay options include marker boards, fabrics, laminates, and 3-Form™ overlays. Wood-Tek™ door and end panels are available in 10 stains and four species of real wood.

Magnetic Application

Our Environmental Pledge

We use environmentally friendly Gloss-Tek™ powder coat on our Times-2 Speed Files. This finish is 100 percent non-emissive; free of formaldehyde, methanol, and other solvents; and completely friendly to artifacts, specimens, and documents.

No wonder we say that with Aurora, any color you choose is "green."

Choose from a number of end and door panel options such as Wood-Tek™, and overlays including marker boards, fabrics, laminates, and 3-Form™.

Times-2 Speed Files® give you more space to work with.

The locking, rotating Times-2 system occupies almost the same floor space as one lateral file, yet provides the storage capacity of multiple lateral filing cabinets. Find out how Aurora Times-2 can bridge the two worlds of work space and storage space, by offering real solutions with efficient and flexible storage options.
