Your New Puppy

What got you interested in English Springer Spaniels?

Have you ever owned an English Springer Spaniel before? If no, please explain about past/current dog ownership

Do you plan to compete with your dog, i.e., agility, hunting, dock diving or other dog sports?

Do you have preference for sex or color?

How do you plan to train/socialize your puppy?

Please tell us about your lifestyle and what are you looking for in a dog.

Are you willing to keep us up to date and let us know about any health issues or concerns that might arise with your dog throughout their life?

What are the most important things to you when looking for a puppy and a breeder?

Total transparency is very important for me as a breeder. Is there anything that I can answer for you about issues in the breed pertaining to health, temperament, lifestyle, activity level or other?

Anything else you would like us to know in review of this questionnaire?

About Our Puppy Rearing

All puppies are born and raised in our home and receive the utmost love, care and attention from the second the litter is planned. Each breeding has a clear set of goals in mind with what it will bring to the table. I am happy to speak to you about potential concerns both in the sire and dam's lines, as well as allow you time to come meet my potential breeding dogs and/or watch them work and compete. All potential breeding's have been scrutinized to the utmost degree and are matched to the best of my ability for improvement and consistency in health, temperament, biddability, consistent structure and to be loving companions.

Parents are carefully screened above and beyond tests recommended for the breed and all results are publicly available via OFA.com. I am happy to talk through all health testing and their results with you. It is very important for me that puppy buyers stay in touch and keep me updated about their dog's health from their first days home, all the way throughout their entire life.

I am a balanced, science-based breeder, trainer and owner. I want my adults & puppies to receive the best possible diet, preventive medicine, medical attention, training and other based on current veterinary

industry backed & supported care. I want my puppy owners to go forward and establish a life long relationship with a vet they trust. I will always be there to support you & your dog.

I ensure that your puppy will receive the best start in life! Our puppies will be raised using a program called Puppy Culture. Puppy Culture is a socialization and training program specifically developed for puppies, from birth through the end of their critical socialization period.

Puppy Culture is based on the premise that the puppy always leads the learning, and puppies learn best by appropriate experiences at the appropriate time.

Puppies will be properly vaccinated based on their maternal immune response Canine Nomograph testing - which you can read more about here.

I am an active competitor in AKC conformation, Agility, Rally/Obedience, tracking, dock diving, FAST CAT and Hunt tests for the past 17 years. I am always here to mentor and help those who may want to explore the wonderful world of dog sports!

Thank you for taking the time to fill out our questionnaire! I look forward to speaking with you!
