OUR APPROACH

Get ready to be part of something truly inspiring. Pedal Sri Lanka – February 2027 marks the third edition of this remarkable charity cycling expedition, bringing together passionate riders, explorers, and changemakers for another meaningful journey across Sri Lanka.

More than a cycling tour, Pedal Sri Lanka has evolved into a purpose-driven movement. From coastal plains and ancient kingdoms to rural backroads and wildlife corridors, the journey takes riders through some of the country's most captivating regions. Cycle past emerald paddy fields, tranquil reservoirs, bustling village markets, and centuries-old temples, while experiencing the warmth and hospitality that Sri Lanka is known for.

The third chapter of this inspiring charity initiative, is thoughtfully structured into two dynamic stages, blending endurance cycling with immersive exploration across Sri Lanka.

Stage 1 is the heart of the challenge: an epic cycling journey covering approximately 405 kilometres across 9 riding days. Riders will traverse a remarkable variety of terrain, from rolling countryside, cultural heartlands and sweeping coastal stretches. Carefully designed routes, full technical support, and experienced ride leaders ensure that the experience is both safe and rewarding, catering to committed cyclists while maintaining the spirit of camaraderie and shared purpose.

Stage 2 shifts the focus from the saddle to deeper discovery, featuring 6 days of curated sightseeing and meaningful engagement. Participants will enjoy wildlife jeep safaris in renowned national parks such as Udawalawe National Park, offering opportunities to witness elephants and other native wildlife in their natural habitat. Cultural visits, community interactions, and time spent with local schools and social initiatives provide insight into the island's diversity and the direct impact of the funds raised.

As the third chapter of this growing legacy, February 2027 promises not only breathtaking rides and camaraderie, but also the opportunity to leave a lasting positive impact—one pedal stroke at a time.
