Cement tiles

DURABILITY
HAND MADE
INFINITE PATTERNS
CUSTOM COLORS

ORIGINS

Cement tiles appeared at the end of the '800 for a faster installation speed compared to the "Venetian" while retaining great attention to decoration and design.

The lower part of the cement tiles is composed of high strength cement and inert, the upper layer is made of marble powder, white cement and colored inorganic pigments. The pigment layer is hydraulically pressed into the surface and becomes a part of the tile.

INFINITE PATTERNS

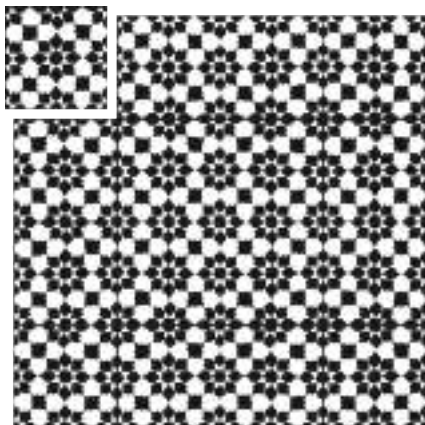

Our cement tiles are made by hand, one at a time. It is possible to create infinite designs with different colors, even on a project.

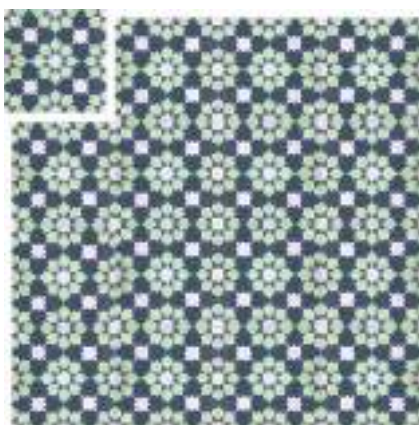

Cement tiles being handmade have slight imperfections, These characteristics add to the tiles natural appeal and do not compromise performance. They are not perfect and are not meant to be, and become more beautiful with time
