After the program Bloodletting was started there were more than 70 people who wanted to donate blood and 30 of them were PWDs. unfortunately, among the 70 only 27 lucky persons could donate blood.

It was a great success and fulfilling for the Foundation to celebrate its founding anniversary while helping the needy, especially in terms of blood. For those who supported this humble act of the foundation, the good Lord may show you all the blessings you need. Dios an Magbalos! Mabuhay PWDMDFC!

Donating blood is actually a picture of what Jesus did for us when He shed His blood so that we might live. When we give blood, we are offering a part of our lives to save the life of someone else. It is one way we obey the second greatest commandment, which is to love others as we love ourselves (Mark 12:31). Jesus said, "Greater love has no one than this: to lay down one's life for one's friends" (John 15:13). If we are called to lay down our lives for others, we can surely give some of our blood to help save them.

First John 1:7 tells us: "The blood of Jesus His Son cleanses us from every sin." So when we confess our sins to God, we're forgiven of our sins and cleansed from them by the blood of Jesus
