PWD'S PANTRY BASKET
The Alpha Enterprise has already built its name in the Chemical Industry. Serving most of the Water District in the Philippines, The Alpha has been the partner in providing sustainable waste water treatment and potable water in serving the community. As its corporate responsibility, The Alpha's Persons with Multiple Disabilities Foundation Corp founded by Ms. Michelle Bauyon with Mrs. Cyrel Buenabajo as the Foundation's Consultant, conducted its project PWD's Pantry Basket that serves as their response to the pandemic's terrible effects on our people's lives. More than kindness or compassion, the community pantries summon solidarity among our people, connecting the well-to-do with people who are in dire need of food assistance.

A community pantry is a service that provides food directly to locals suffering from food insecurity. Some rely purely on local donations. Some coordinate with food banks and organizations for steady supplies of food and essential goods. Some also organize other socio-civic activities for patrons. The community pantry is not a new idea, as many have been established elsewhere as an immediate, local response to hunger, but in the context of the pandemic and millions of food-insecure Filipinos, the idea has proven nothing short of revolutionary.
