Ms. Brookbank is coordinating a very special program at NWE in conjunction with Crayola. It's Crayola ColorCycle – an amazing new program devised to turn used markers into energy! All around NWE, students and teachers will be collecting used markers that are ready to be discarded. The markers will be sent to a facility where they will be converted into clean fuel. This fuel can be used to power vehicles, heat homes, cook meals and more!

Please send in any used markers you may have around the house – even non-Crayola brands. Drop-off boxes will be located around the school for your child to deposit the markers. The Crayola ColorCycle program can keep tons of plastic out of landfills each year. Remember, don't throw out that used marker—ColorCycle it!
