

# CPAP Products

**We ARE the Manufacturer**  
**(not just another distributor)**

## Die Cutting

**We make our CPAP chinstraps using a 27-ton die press for clean, accurate cuts.**

## Ultrasonic Welding

**Our ultrasonic welding machine attaches velcro tabs with perfect precision.**

## Filter Fabrication

**CPAP filters are either die-cut or specially fabricated to meet OEM specifications.**

**LifeSource, Inc. 10606 Widmer Road, Lenexa, KS**

**Questions? Call Customer Service at 913.660.9275**

## Tube Covers

Our tube covers are made of soft fleece material which slides over a CPAP tube and fastens with Velcro®. There are three benefits to the use of a hose cover:

1. Insulates the hose from the cooler ambient room air, reducing condensation within the hose;
2. Keeps the CPAP hose from disrupting sleep when it contacts skin;
3. Reduces the "medical" look of your CPAP hose.

*NOTE: The shade of the color may vary. This does not affect the performance of the product.*

**Navy**

**Pink**

**Heather Grey**

**Burgundy**

**Olive**

- 
- TC-NAVY Tube cover, navy, 6 ft.
