

Chairman's Report May 2020

Hope you all are staying well and enjoying the rest, sorry, doing all those jobs you have had on the list for the last number of years

As you know StaffMog WhatsApp is up and running (thank you Karen) and for those who have been adding your photos and messages, thank you for keeping us entertained and up dated. Keep them coming. If you have not opened and joined in yet, come on let's have your input.

Once again, this month's Burble & Blatt does not have an events calendar but in it's place we have some very interesting items and I would like to thank Bob for putting it all together again. I would also like to thank Dave Berridge for his story on the refit of his+8 and photos and Maurice Williams for the table top rally in the comfort of your own home. I hope everyone enjoys reading the article and taking part in the rally.

There are a lot of members in the Staffordshire Centre with plenty of experience and stories to tell so I would ask all of you to think about what you might be able to share with the club and contribute towards future editions of Burble & Blatt. The next newsletter could look very basic without members involvement so please get creative and let Bob have your contributions soon.

Looking ahead. When we can get out and meet up, what would you like to do as our first Noggin. It would be nice to get out, like a run out. If you can give me any ideas so I can arrange something.

I am still "hopeful" that we might get the run to the Yorkshire Dales in August and Henry Coates is working on a revised visit to the Gloucestershire Warwickshire Steam Railway on the 13th September but I guess we will just have to wait and see.

If you have any ideas for Burble & Blatt let Bob have them. He can polish them up a bit if you're nervous about getting them perfect but one thing is for sure, without contributions from Members, the next B&B will be a lot shorter.

Remember, enjoy what you do as long as you stay home and "stay safe"
