

## COLLABORATION PROVIDES FULL-SERVICE SOLUTIONS!

### TACMINA

a leader in precision pumps and CSMI have joined forces to provide  
**solutions to your fluid delivery systems!**

Combining TACMINA's fluid delivery systems with CSMI's engineering and technology we deliver a single source from equipment builds through integration and start-up, followed with ongoing technical support services.

Our teams work transparently and openly, readily responding to the scope, schedule, and budget of your project. We do this while managing the technical, regulatory, and environmental concerns associated with manufacturing.
