TAMATTA

THE NEWSLETTER OF PIRUQATIGIT RESOURCE CENTRE

Celebrating One Year of Serving Nunavummiut

PIRUQATIGIIT RESOURCE CENTRE HAS NOW BEEN OPEN FOR OVER A YEAR!

In mid-2018, Piruqatigiit opened our doors and started providing services for individuals and families affected by FASD. We also train and consult for organizations to support FASD and trauma-informed spaces and practices across Nunavut.

This fall, we continue with ambitious programming and the development of literature and resources for Nunavummiut. We celebrate how far we have come with the release of our first edition of our newsletter, *Tamatta*.

In this issue:

SUMMER PROGRAMS - P. 2

FASD AWARENESS MONTH - P. 3

RESEARCH BRIEF - P. 3

UPCOMING PROGRAMS FOR CHILDREN, YOUTH & CAREGIVERS - P. 4 & 5

Uluriaralaat and Ilagiit Summer Camps

This summer, Piruqatigiit ran two pilot land-based summer camp programs in Iqaluit.

Uluriaralaat Little Stars Camp hosted campers with suspected or confirmed FASD or Attention Deficit and Hyperactivity Disorder (ADHD), and Ilagiit Siblings Camp hosted kids who are siblings or close relatives of children/youth with FASD and other neurodevelopmental disabilities.

Camps were based on the land at Iqaluit Kuunga and activities included:

- Fishing
- Plant teachings and berry picking
- Elder visits
- · Crafts and cooking
- Boat trip

All staff were trained to provide an FASD-informed environment, and understand the unique challenges of neurodevelopmental disabilities.

A huge thank you to our funders, camp staff, program developer, Polar Outfitting, and Piruqatigiit families for making this pilot camp possible!

Our unique program included a sensory tupiq, bubbles, sand tubs and maker space. This gave campers with sensory processing challenges or attention difficulties opportunities to recharge, unwind some energy, or experience independent play.

A huge thank you to the Department of Culture & Heritage, Department of Health Wellness Fund, and the Quality of Life Secretariat for making this program possible. Also, thank you to Northmart for generously donating fishing rods and camping gear for our campers!

Campers and staff spent the week playing games, having fun, learning, and celebrating each other and ourselves.

Research Highlight

A FATHER'S ROLE IN FASD

Research has shown for years that fathers and other family members can help prevent prenatal alcohol exposure through supportive relationships.

New research highlights the effects of alcohol on sperm (the genetic material passed down by a biological father). We now know that fathers' genes are affected by preconception alcohol use, and these changes may be passed onto the baby. The changes might make a baby more susceptible to FASD or affect fetal development.

Given this research, it is even more important to include fathers in the discussion about FASD.

For more discussion about the research, visit the Canada FASD Research Network's website at www.canfasd.ca.

Let's celebrate our differences and support each other's strengths so we can all bloom when it's our time.

FASD Awareness Month

SEPTEMBER 9TH IS FASD AWARENESS DAY

Throughout September, Piruqatigiit celebrated FASD Awareness Month.

Events and activities included:

- Community information booth
- Community baby shower with a mocktail bar, face painting, and gifts for new parents and parents-to-be
- Workshop on our photo story project
- Question & Answer night at Unikkaarvik Visitor Centre, featuring Nunavummiut with lived experience
- A full day Qaumajuut Caregiver training workshop
- Month long social media messages of support, sharing information, and celebrating Nunavummiut affected by FASD.

Upcoming Programs for Children & Youth

Uluriaralaat / Little Stars - Ages 5-6 with Suspected or Confirmed FASD

- Saturday, November 9th, 10-11:30am
- Saturday, December 7th, 10-11:30am

Ajungi Club - Ages 7-11 with Suspected or Confirmed FASD

- Saturday, November 9th, 1-3pm
- Saturday, December 7th, 1-3pm

*Programming for older youth with FASD will be scheduled shortly. Email info@piruqatigiit.ca to be notified.

llagiit Siblings Club - Ages 6-10 (sibling or close relationship to a child with FASD or another neurodevelopmental disability)

- Saturday, November 16th, 10:30am-1pm
- Saturday, December 14th, 10:30am-1pm

llagiit Siblings Club - Ages 11-14

- Saturday, November 16th, 2-4:30pm
- Saturday, December 14th, 2-4:30pm

People and families
with FASD need
everyone's support and
understanding.
Reach out and reach in.
We are stronger
together.

Important Information for Child & Youth Programs

- Programs are at 1412
 Sikituuq Cres. on the upstairs floor (MakerSpace building).
- No prior registration is required. If you want to find out more about a program, email info@piruqatigiit.ca.
- A form must be completed for each child, with contact and medical information.

Upcoming Programs for Caregivers

Taqaiqtitisijiit Community Respite Caregiver Training Program -January 6 - April 3, 2020

- A 3 month training program for out of school and out of work youth and adults.
- Training and skill development to support Nunavummiut with FASD and other neurodevelopmental disabilities.
- Learn about personal wellbeing, community wellness, Trauma-informed practice, and respite care.
- Participants will become trained respite care providers and can launch their business following the training.

Katimajuut Peer Support Program last Thursday of the Month

- For October, this will be October 24th due to Halloween.
- Drop-in support group for parents and caregivers of individuals with suspected or confirmed FASD.

Qaumajuut Caregiver Program -Tues Nov 19th from 9 am - 3:30, 1412 Sikituuq Cres.

 An interactive day-long workshop for parents and caregivers of individuals with suspected or confirmed FASD.

Space is limited. To sign up or for more information, email jennifernoah@piruqatigiit.ca.
