INSTRUCTIONS FOR USING THE FULL MARGO TREATMENT: A THREE STEP PROCESS

- **STEP 1:** Apply 10-20 drops of the Penetrating Cleanser (Step 1) around your dry scalp and then massage the lotion in gently until your scalp is covered. Ideally, the lotion should be left for about 10 minutes before shampooing but, if your time schedule does not allow that, it can be applied and left overnight before shampooing in the morning.
- **STEP 2:** In the shower, wet your hair and apply the Herbal Shampoo to your scalp, massage and then rinse. If your hair needs it, add a few more drops of the shampoo, work it into a rich lather, and then rinse again thoroughly.
- **OPTIONAL STEP:** If you have very dry, colored or tangling hair, you should use the Moisturizing Conditioner. Once you have rinsed off the shampoo, apply a few drops of Moisturizing Conditioner to your hair and massage gently, concentrating on your hair ends rather than the scalp. Leave it in your hair for 1-2 minutes, and then rinse off with cool water.
- **STEP 3:** After towel drying your hair, apply 20 to 30 drops of the Revitalizing Serum (Step 3) to your scalp and massage gently until your scalp is covered. After the Lotion is applied, you can set or comb your hair. Do not rinse the Revitalizing Serum or it will lose its effect. Ideally, you should allow the lotion to dry by itself without blow drying. If you have to blow dry your hair, do so when the hair is almost dry. This will allow the skin to absorb as much of the Serum as possible.

In order to get the finest benefit from the Margò Alive treatment, especially at the beginning, we recommend the full 3-Step treatment twice a week, combined with a daily application of the Revitalizing Serum (Step 3). Even though the average person needs to shampoo every second day, people with extreme oily scalp conditions or very active lifestyles may need to shampoo every day. If you are one of these people, you should still use the Revitalizing Serum daily and the Penetrating Cleanser (Step 1) twice a week.

The frequency of use for the Margò Alive treatment may vary individually because we are not all the same and do not have the same scalp needs, but as a general rule, once the first full Combo Kit treatment is finished, then shift to a the full treatment just once a week (Step 1, Step 2, (if necessary, the Optional Conditioner) and Step 3). The daily use of the Revitalizing Serum is recommended until the scalp and hair condition is fully normalized. We aren't into promising instant results, our products encourage regrowth which is a slow, but safe and lasting process.

What is written here is a basic guide. If you have any further questions about our instructions, please call us at 1-800-667-1022 and we will do our very best to assist you. Thank you for choosing the natural way to healthy hair care!

NOTE: The best way to apply the product in Step 1 and Step 3 without wasting it is to utilize the dropper contained in the cap. Place one drop at a time in the directed amounts per step, distributing them around your scalp, then work them into your scalp with your fingers in gentle circles until the liquid feels absorbed, usually just a few seconds.
