ABB, Inc. - Flowmeters: Magnetic, Vortex, Swirl, Mass, Rotameters, Pressure/Temperature Transmitters, Controllers, Chart Recorders, Positioners, Damper Drives, Stack Gas Analyzers, Pneumatic Controls, Portable Calibrators, Pressductor®, Ultrasonic Level, Laser level.

K-Tek Level - Part of the ABB family, K-Tek is a heritage brand providing Level Instrumentation. Rugged solutions for Float Sensing, Guided Wave Radar, Magnetic Level Gauge, Magnetostrictive Level, RF Capacitance, Thermal Dispersion Switch, Vibrating Fork Switch.

Galvanic Applied Sciences - Gas analyzers measuring H₂S, Total Sulphur, H₂S/SO₂ tail gas, Hydrocarbons and BTU content. Involving gas chromatography, tape based, and UV spectrophotometer-based technologies. Liquid analyzers measuring turbidity, suspended solids, color, and viscosity. Involving colorimetric, titrimetric, and spectrophotometric technologies.

TracXP by Macurco - A comprehensive line of Industrial Fixed and Wireless Gas Detection, Combustible, Toxic and Flame Detection for both hazardous and safe areas.-UVIR and IR3.

Heise - Precision Pressure/Vacuum Instruments, Dial and Digital Indicators, Analog and Digital Transducers, Portable Calibrators

Kessler Ellis Products- Electronic Flow Controls and Indicators, Batchers, Integrators, Count, Rate and Time Measurement, PLC Interfaces, HMI Software

MicroMod - Advanced Control, Micro-DCI and MODCELL Process Control Products, Retrofit packages for ABB, Bailey, Fischer & Porter and Kent-Taylor Instruments

Moore Industries - Signal Converters, Isolators and Alarms, Temperature Transmitters and Assemblies, Integrators, P/Is, I/Ps, Cable Concentrator Systems, Network Systems, Computer Interfaces, Fieldbus Device Couplers and Power Supplies

PMV-USA - Pneumatic, Electropneumatic and Digital Valve Positioners, Rotary and Linear, Extensive Actuator Mounting Kit Inventory and Accessories

Precision Digital- Panel Meters, Pump Controllers, PID and Batch controllers, Line and Loop powered Indicators, Rate/Totalizers, Scanners and Annunciators, Process indicators and controllers, Large and Small Displays

Servomex- Process Gas Measurement and Analysis including Combustion, Stack Emissions Monitoring and Portable O₂ Analyzers. Zirconia, Paramagnetic, UV-IR and TDL technologies are key technologies.

Vega Americas - Continuous and Point Level, Interface, Density and Weight Instrumentation. Non-Contact Pulsed & Guided Wave Radar, Ultrasonic, Radiation. Contacting Vibration, Capacitance, Conductive, Hydrostatic and Magnetic technologies. Source holders and factory source disposal.
