

Paper Hot Cups

Ripple Wall

Choose Ripple Wall insulated paper hot cups from MP Classics™ for style and performance. Each cup in the series features a polyethylene-coated interior wall. On the outside, users will enjoy a kraft, corrugated wrapped layer that helps to reduce the heat transfer of coffee, tea and other hot beverages. This eliminates the need for a separate sleeve and delivers a premium appearance. Match the cup with one of our sip style lids.

- Available in three sizes
- Corrugated ripple wall exterior reduces heat transfer making cup more comfortable to hold
- Single-sided polyethylene lining delivers consistent, leak-resistant performance
- Natural kraft color
- Smooth rolled rim for comfort, improved lid fit and a superior seal
- Sip style lids available
