

Property Insurance Claim Management & Property Repair

To: Andrew Smith - Citrus Funding

Testimonial: June 2021

My Property Claim handles property insurance claim reinstatement for commercial and domestic building insurance policyholders. This kind of work is generally of an unplanned nature as we need to respond quickly to an unforeseen event such as Fire, Storm, Flood or even a simple escape of water that can result in significant water damage to a property if not treated promptly. These are the core parts of my business that I know best and so receive most of my attention.

However, just as important to my business, if not more so, are those regulatory requirements, codes and standards that all businesses must comply with in order to trade legally and professionally within their sector.

As My Property Claim manages building insurance claims, then one area where we must be compliant is with the Financial Conduct Authority regulations. Like most SME companies, we are very busy and do not have enough time or experience to setup and become directly regulated.

Having a company such as Citrus Funding supporting you and your business makes the entire FCA compliance issue so much easier and far less time consuming than going direct.

I would therefore have no hesitation in recommending Citrus Funding to anyone requiring regulatory business solutions and support for their business.

Regards,

Alan Howell
