10am - 3pm

Deaf Inclusion Group  
All ages  
Monthly

*Individual Supports available 24/7 in home and community access*

# PRICING

Atypical Solutions  
PTY LTD

We are an inclusive organisation, we support all people regardless of ability.  
All supports at Atypical Solutions are provided in line with the current NDIS Pricing Arrangements and legislation.

Pricing is determined by individual support needs, with services available on a 1:1, 1:2, 1:3 or 1:4 basis.

For programs based at Atypical Farm, Centre Capital Costs and Non-Face-to-Face charges apply daily, along with individual support costs based on the agreed ratio, all charged at NDIS maximum rates.

Our team consists of highly qualified and thoroughly screened staff, ensuring compliance and the highest quality, person-centred care. We are also Child Aware registered.

All supports are charged by the hour depending on support ratio. The current weekday hourly rate for 1:1 is \$67.56 per hour and Saturday rate is \$95.07. Pricing is then determined based on how many participants are attending on the day and your individual support needs. We also have a centre capital cost of \$2.53 per hour and 15 minutes non face to face time for each session which allows us to set up, pack down, write individual notes and plan for each persons goals and future supports. We usually recommend 1:1 or 1:2 support ratio for people with complex communication needs, behaviours of concern and those who experience high anxiety levels. Please contact us directly if you are unsure which support ratio is best suited to you or your child.

Transport to and from programs is available at an additional cost, aligned with NDIS pricing guidelines.

We currently accept NDIS plan managed, self managed or private fee for service as payment options.

We do not currently provide CCS rebates.

All non-NDIS participants are automatically supported at 1:4 ratio

Our fees include all materials and resources for the day as well as morning tea, lunch and afternoon tea.
