

NEEDLE-FREE | PAINLESS | MAXIMUM RESULTS

JUVASONIC® | ENHANCES TOPICAL ABSORPTION

How JUVASONIC® Works

- 📶 Opens the Skin Barrier (Stratum Corneum Disruption)
- 📶 Enhances Absorption of Key Actives:
 - Exosomes
 - PRP and PRF
 - Growth Factor Serums
 - Peptides
- 📶 Fast Recovery—Skin barrier restoration within 15 minutes

JUVASONIC® is an innovative, **painless, needle-free technology** that enhances the absorption of topical anti-aging serums. Using a **single-use, sterile cartridge**, JUVASONIC® temporarily disrupts the skin barrier (stratum corneum), allowing for deeper penetration of active ingredients.

TRANSFORMING TOPICAL SKIN DELIVERY

JUVASONIC® | SCIENTIFICALLY VALIDATED

JUVASONIC® is a patent-pending device specifically tested and designed by physicians and scientists to enhance the topical absorption of actives such as exosomes, PRP/PRF, growth factors, and peptides providing a safe and effective topical procedure.

JUVASONIC® | PAINLESS, NEEDLE-FREE SKIN AND HAIR REJUVENATION

- ✦ **Hair Restoration** – Boosts serum absorption for thicker, healthier hair
- ✦ **Facial Rejuvenation** – Enhances anti-aging serums for improved texture & tone
- ✦ **Lips, Hands & Eyes** – Hydrates and smooths fine lines—no needles required
- ✦ **Filler Nodule Dissipation** – Uses sonic vibration to safely break down unwanted filler nodules

JUVASONIC® | DISPERSE FILLER NODULES

JUVASONIC® uses SONIC VIBRATION to quickly and painlessly disperse dermal filler nodules at the point of care.
