

The Enneagram Leadership Development Course and Workshop Syllabus

Workshop Bonus: To qualify for the **Mindstyle Survey**, you must register and pay the enrollment fee no later than **1 November 2025**.

The Mindstyle Survey is a simple to take yet a profound tool that shows how your brain works with information, emotions, actions, and creativity.

It includes one consultation with Maikel to review results - \$150 Value! While it is not necessary for the Enneagram Leadership Development Course and Workshop, it is an invaluable resource in this training and highly recommended.

With the inclusion of the Mindstyle Survey, and two more 1-on-1 consultations I've added \$450 in additional value, while keeping the Workshop fee the same, \$1499.

Why? I believe this training is so important and valuable to coaches marketing themselves that I want to make it as affordable as possible.

What Others Are Saying About the Enneagram Leadership Development Course and Workshop

We are about to finish the MLEI program with Maikel. I would like to say that if you want to become more familiar with the MLI and how to use it, if you want to simplify the complexity of this tool, if you want to go deeper into your own development and potential obstacles to it, if you want to share experiences with other fellow coaches, connect with Maikel.

And as a bonus, with Maikel, you need to know that we worked on personal fears, which, as you know, influence motivation, decisions, and behaviors. This effects leadership development, and this is a tool that Maikel provides that we can use in our
