1. Please Mail this Form and Ship All COM Yardage to:

Sunset West Attn: COM Dept
 1300 Specialty Drive Suite 103
 Vista, CA 92081
 760-599-1021

2. For COM orders it is required that a fabric cutting be sent for pre-approval. Please send a recommended 4" x 4" or larger physical cutting of fabrics attached to this form. Hooker Furnishings/Sunset West reserves the right to refrain from applying COM, which we deem to be unworkable or not suitable for the intended application.

3. Orders are not scheduled for production until COM fabrics are received at our facility with all required information. If information is missing on a received COM, production scheduling will be delayed until we receive the required information. Lead time for COM orders commence once all fabrics/information are received by Sunset West, NOT when the order is placed.

4. COM Material must be in compliance with CAL TB 117-2013 and/or UFAC Class 1 for flammability. UFAC Class 2 is not acceptable. Hooker Furnishings/Sunset West assumes no responsibility or liability for the flame retardancy of any COM or for the compliance of any COM with any other applicable codes, regulations, and laws.

5. If your COM fabric is shipping directly from a fabric supplier, it must include the corresponding PO# that matches your PO# placed with Hooker Furnishings/Sunset West.

6. Prior to shipping COM to Hooker Furnishings/Sunset West yardage should be inspected and verified as outdoor upholstery grade fabric by the fabric resource. We are not responsible for any dye lot variations in COM fabric supplied to us. COM yardage must be received in one continuous piece. Please do not ship your COM fabric folded in a box.

7. When using up the roll (bolt) fabric (non-railroaded), seams may be required that are not shown in catalog/website or floor

8. **Our COM chart in the Sunset West Price List assumes a fabric width of 54" and no patterns.** If your COM has a pattern/repeat, or bolt is less than 54" in width, please use the below fabric charge to calculate additional yardage needed. We reserve the right to request additional yardage based on unusual repeats or fabric designs. Hooker Furnishings/Sunset West is not responsible for yardage excess/shortages for COM due to variations in patterns and cutting requirements.

9. COM cushions and Kits are priced as Grade A.

THE BELOW TABLE ESTIMATES THE NEED FOR ADDITIONAL YARDAGE.

The Safer Occupancy Furniture Flammability Act ("SOFA") regulates the flammability of upholstered furniture in the United States by mandating the adoption of California's TB 117-2013 as the nationwide standard. There are also a growing number of state laws pertaining to the use of flame retardants and stain resistance substances known as per-polyfluoroalkyl substances ("PFAS"). Textiles purchased by on behalf of the customer (i.e. graded-in) must be California TB-117 compliant, flame retardant free, and PFAS free. Proof of documentation may be required to finalize the transaction. As a condition of placing a customer's own material (i.e. COM) order with Hooker Furnishings, the customer is solely responsible for ensuring that the COM complies with all applicable laws, including but not limited to those previously mentioned. Additionally, the customer will indemnify and hold Hooker Furnishings harmless for the use of COM selected and supplied by the customer.

	Coastal Teak Rectangular Coffee Table L50"xW28"xH18" / 45lbs	SW5501-CT	STOCK KIT	1197.00	Our Coastal Teak is made from 100% solid teak wood, which may contain grooves, knots, splices, cracks, and other rustic features. While the teak has been kiln dried, it is solid wood. In an ever changing hot/cold environment with changes in humidity, expect slight splitting, checking, and possibly lifting. These attributes are intentional and give each piece its own unique character. When exposed to the elements, the water-based finish will eventually wear away and uncover the unfinished natural teak underneath, which will then start its own 'natural' weathering process and slowly acquire the silver-gray patina that is characteristic of untreated teak when exposed to the outdoors.

CARE & MAINTENANCE

ROPE

Sunset West crafts their rope furniture out of olefin rope, which is all-weather, colorfast, and stain resistant. Blot spills gently, and clean stains with mild soap and water and a soft cloth or very soft bristle brush. Do not use a coarse brush, or any abrasives or solvents when cleaning, as this may damage the rope and cause fraying.

NATURAL STONE

Sunset West offers occasional teables and fire tables in Natural Stone. Clean GRANITE or CARRARA stone tops with a designated stone cleaner and soft cloth. Do not use harsh cleansers or abrasives. Blot spills with a paper towel or a soft cloth immediately, then flush with water and very mild soap if necessary. Dry completely.

For stubborn oil-based spills, use a nitrocellulose lacquer thinner (available at most home improvement stores) to dissolve and treat the stain. Do not use any acids or abrasives. We strongly advise sealing your stone furniture tops with a low sheen, impregnating stone sealer to protect your stone and maintain its beauty outdoors.

For CONCRETE

Wash with mild soap and warm water solution using a soft cloth as needed. Through normal use, heat may cause the stone to expand and contract, and micro fissures may appear. These are easily filled with a touch up kit available through Sunset West.

For SINTERED STONE

Simply wipe down with mild soap and water to clean.

CUSHIONS & SLINGS

Sunset West uses premium Sunbrella® Solution dyed acrylic fabrics. It is recommended to clean the fabrics on a regular basis to prevent the build up of dirt and the chance of mildew to form. Wipe light spills with a clean, dry cloth. With regards to stubborn stains or spills, please visit www.sunbrella.com for specific care and cleaning details.

Allow cushions to drain if wet. If soaked through, stand cushion on its side to allow faster draining. Ensure cushions are dry when covered, store cushions separately.

Clean sling fabric using a mild soap and warm water solution and soft cloth.

MOVING PARTS & HARDWARE

For pieces with moving parts, i.e., wheels, swivels, or dining table leaves, periodically check and tighten all nuts and bolts as necessary to keep them secure. The same goes for assembly hardware on tables, swivel rockers, etc. Periodically exercise moving parts to keep them from locking up. This will ensure that all products continue to operate as they should.

GLIDES

Sunset West utilizes sacrificial glides on the bottom of legs and horizontal surfaces to protect both the furniture and the surfaces they are being used on. Occasionally inspect the glides and replace when they are worn. DO NOT wait until heads are worn completely through to the metal or damage to the deck/patio/lanai surface will occur. Many of the glides are adjustable to compensate for uneven surfaces and will loosen over time. It is suggested that you keep them tight unless using this adjustable feature. If glides are allowed to back out too far, they can fall out or snap off under stress. This is not covered under the warranty.

CARE & MAINTENANCE

Sunset West's furniture and appearance will be enjoyed for years to come with proper care and maintenance. Caring for outdoor furniture is much like caring for your car; Keep it clean and protected and it will stay looking good. Neglect it, and it won't. Add a coat of automotive or outdoor furniture wax to make that "new" look last even longer. Please review the following instructions thoroughly, as failure to maintain your furniture may void its warranty.

We recommend covering your outdoor furniture with outdoor covers (sold separately, please contact us for recommended vendors) when left outside during inclement weather. Covers MUST be properly sized, have a non-abrasive backing and be secured tightly to prevent the finish from being damaged when the covers move in the wind. Premature finish wear from covers is not covered under the warranty. Ensure frames and cushions are COMPLETELY dry BEFORE they are covered. Storing cushions separately indoors will prolong their life. Where possible, outdoor furniture should be stored inside during the off-season, especially in freezing environments. Finally, to maintain or restore the luster of your furniture, after-market products are available to refresh UV protection and water repellency on both frames and cushions - apply as needed.

METAL

Sunset West offers powder coated metal frames in both aluminum and wrought iron. To clean, wash with a mild soap and warm water solution using a soft cloth. Do not use a coarse brush or harsh cleaners, as they may damage the finish. Always rinse and dry thoroughly after cleaning. While drain holes are preventative, water can still gather in the frames, freeze, and cause the finish to crack and the frame to burst. Check holes for debris and clear them if necessary. Freeze damage is not covered by the warranty so be diligent. Coastal areas as well as pool chlorine is very harsh on all metals. Salt and chlorine must be cleaned from frames on a regular basis, or the finish may oxidize, discolor, and/or blister. Salt and chlorine damage is not covered under the warranty.

WOVEN RESIN

Resin weaves are virtually maintenance free, however, it is recommended to clean the frames on a regular basis to prevent the build-up of dirt. In extreme climates where temperatures can reach above 100°, place furniture in 50% shaded areas.

TEAK

Sunset West uses natural teak wood in their Teak collections. The Coastal Teak finish has an additional process to create a grey weathered look. To clean, wash with a mild soap and warm water solution using a soft cloth. DO NOT use harsh cleaners or abrasives as they will damage the finish. Our multi-step finish is applied to the rustic planks and then sealed with Golden Care ® "Teak Shield" (sold at your local hardware store or online) to aid the longevity of the finish. Touch-up kits are available through Sunset West to maintain your Coastal Teak finish as needed. If using furniture covers, please ensure they are well vented to prevent mildew build-up.

When left exposed to the elements, the water-based finish will eventually wear away and uncover the natural teak underneath. The teak will then start its own natural weathering process, and slowly acquire the silver-gray patina that is the characteristic of untreated teak when exposed outdoors.

Please note that during the weathering process, the appearance of the furniture may be uneven, but will eventually develop a beautiful, uniform, silvery-gray patina.

LIMITED WARRANTY

Sunset West products have been designed to provide aesthetically pleasing looks, comfort, and durability in an outdoor environment. Only the highest quality materials are used in Sunset West products.
