— FURNITURE —

Elements

Putting a fresh spin on traditional design, REVERIE blends old world and modern design elements to create a fun, casual look that has become so popular in American homes.

The updated traditional collection merges two lanes of the design highway: an updated look is achieved by its clean lines that accentuate the glazed platinum gray finish, while the finish itself – which is subtly darker than most gray finishes in the marketplace – adds to the traditional feel.

Defined by its clean lines and distinctive finish, Reverie's updated traditional design elements include antiqued mirror accents, fretwork overlays and oversize ring pull hardware. An array of fabric seating and upholstered bed choices are offered with crisply tailored upholstery which are accented with button tufting or nail head details.

Reverie, which includes bedroom, dining room, occasional, home office, home entertainment and accent pieces, is crafted of quartered white oak, and its innovative finish is slightly distressed with moderate wire brushing.

Highlights of the bedroom pieces include an upholstered bed with button tufting, a crown motif and fully upholstered bed rails. Dining pieces are headlined by 86-inch rectangular and 54-inch round dining tables, and the collection also includes a 76-inch tall display cabinet and a 69-inch buffet.

Other key pieces include a 60-inch writing desk and an 80-inch media console. All other case pieces in the collection feature distinctive oversize ring pulls for hardware.

Quality

Drawer Construction & Operation

- Full height, full depth and full width drawers for maximum storage capacity.
- All drawers have strong, time-tested English or French dovetail construction, for years of problem-free use.
- Plywood drawer bottoms are attached to plywood drawer sides for strength and durability.
- Our top-of-the-line bedroom collections include bottom drawers on major case pieces that are cedar-lined for the aromatic benefit and preservation of clothing.
- Some night stands offer receptacles on the back of case.

Quality From Start To Finish

Of all the aspects of wood furniture, the finish most visibly reflects its character, quality and style. While the finish is one of the last things we do, it's the first thing you see. That's why at Hooker, we utilize a multiple-step finish process of up to 16 finish steps. This results in an unsurpassed clarity, depth and color richness and durability to our finishes. Through hand-craftsmanship such as rubbing and padding, our finishes "feel" as good as they look, with a smoothness that is delightful to the touch.

Wood & Veneer Construction

Many of our furniture items are constructed of hardwood solids and veneers or hand-painted finishes over durable wood products such as medium density fiberboard (MDF) and particle board. MDF and particle board are used in quality furniture for areas that need to be stable, such as large surfaces. These durable wood products do not expand and contract with heat and cold and do not absorb moisture as much as solid wood, which results in stronger and longer-lasting furniture. Due to a wide variety of wood species and decorative designs used in our furniture styles, variations in construction are possible.

Dining Room
