There is no harm done to the worms and they are allowed to get mature and fly away as moths before the cocoons are extracted to create silk.

ORGANIC COTTON

We have collaborated with an Organic farming unit in India. We are creating different clothing pieces using the hand-woven organic (75%) cotton. Every piece is uniquely beautiful. This fabric is soft, durable, non-toxic, breathable, absorbent.

Organic cotton is good for our health, and to mother earth. It helps weavers and their families with employment opportunities. And helps protect the heritage.

This cotton is hand-spun, hand-woven.
