

Hello

Welcome to The Green Lantern Cabin!

We're glad you've decided to come to visit! After over ten years of visiting Broken Bow with our family, we decided to purchase a cabin of our own, @throughthelookingglasscabin. We love that we can share our "happy place" with so many other families! We loved it so much, we decided to build a second home @greenlanterncabin out here. We hope you, your friends, and your family have a wonderful time.

We've created this guidebook to help you find everything you need to know about our place and the surrounding area, from check-in time to the WiFi code, from great coffee to the best local restaurants. It's all here.

If you take pictures during your stay, we would love to see them! Tag us on Instagram and Facebook @Greenlanterncabin or use the hashtag #Greenlanterncabin

Most importantly, we hope you enjoy your stay!

Natalie & Corey

Personal lock codes will be provided to guests in their Welcome email the day before they arrive.

Parking

The cabin has a large drive with ample parking for guests. The drive also makes it easy to pull and park your boat in the front.

House Guide

Temperature

The cabin has central heating and cooling. There is a thermostat located on the lower level by the dining room table, as well as one upstairs. During the heat of the summer, the units will work best with the fans in the cabin on as well.

When you leave, please make sure to set the cabin temperature back to 73. .

Trash

There are two trash bins at the front of the property, at the bottom of the drive. Trash is collected on Monday, Wednesday, and Friday. Additional trash bags are located under the kitchen sink

Large Amenities (Hot Tub)

The hot tub is emptied and cleaned in between each guests' stay. We ask that you use plastic glasses in and around the hot tub, which are provided for you. Please no food in the hot tub. To freshen up the hot tub during a long stay, there are tablets under the kitchen sink. Only one tablet is needed. The hot tub stay on, even when your not using it, to circulate the water and stay fresh for you.

Laundry

A stackable washer and dryer is located in the bedroom on the left. Guests are provided a starter amount of detergent and dryer sheets. Laundry supplies are located on top of the washer/dryer.

Indoor Gas Fireplace

There is an indoor gas fireplace in the main cabin. A timer is on the left side of the fireplace. Turn the timer, and the fireplace will light. When the fireplace is off, you will still notice a small light/flame at the bottom of the logs. This is the pilot light. Please do not turn off the pilot light! If it goes out and you need help lighting it, please let us know. Do not add outside logs to the fireplace.

Disposal

Due to the cabin's septic system, we cannot have a garbage disposal in the cabin. We do provide mesh strainers for the sink to help collect food. It is helpful to scrape plates in the garbage before washing them.

Patio + Grill

The cabin has an outdoor grill for your use. Grill tools are located in the far drawer in the kitchen. Make sure all knobs are turned off before lighting the grill. There is a timer located next to the grill. If the timer goes off and you need more grilling time, simply turn it on again. Please monitor grill while in use.

Refrigerator + Dishwasher

The cabin has a full-size refrigerator and a full-size dishwasher. The fridge has a water filter, which we recommend using for drinking water. There is also an ice maker. Dishwashing detergent is located under the sink for your use.

Coffee Maker

A coffee maker and K-cup maker are located in the kitchen for your use. A single pot of coffee grind is available for guests. Guests may also find sugar packages in the basket for coffee use.
