

Seasonal and Summer Student Employment Opportunities

The RM of Nipawin is currently accepting applications for **seasonal positions within the Public Works Department**, as well as **summer student opportunities in both Public Works and Municipal Office Administration**.

Seasonal Public Works roles provide valuable, hands-on experience supporting the maintenance and operation of municipal infrastructure, including roads, equipment, and public spaces. Summer Student positions offer meaningful exposure to municipal operations, whether assisting Public Works crews in the field or supporting administrative functions within the municipal office.

These opportunities are well suited for individuals seeking to develop practical skills, gain professional experience, and contribute to the delivery of essential municipal services.

Interested applicants are encouraged to visit the **Job Opportunities** section of the website for full position details and application instructions.

Applications will be accepted for a limited time; early submission is encouraged.
