EASY WAY AMPHIB STEPS

Getting On & Off Your Amphib Floats Has Never Been Easier

Our all-new Easy Way Amphib Steps provide a safe, sturdy, natural way to walk on and off your amphibious floats.

Made of 100% lightweight aircraft-grade aluminum and stainless steel, these collapsible steps are easily stowed in the float locker.

Fast, Easy Installation

In five minutes, you can retrieve the steps from the well, unfold them, drop the top brackets into the two plug holes on the float, and simply walk off your aircraft. Just like walking down your stairs at home!
