

Stop proposed Lava Run and other Wind Farms poised to devastate the White Mountains

Everyone must **HELP** - stop the 27 mile Interconnection Lines (transmission lines) along Hwys. 60, 180/191 and the Little Colorado River Canyon to the Springerville Generating Station.

Without approval of the Interconnection Line, the Lava Run Wind Project is DEAD!

A Public hearing will be held remotely at:

Springerville Municipal Airport
905 West Airport Road, Springerville
on February 9 @ 10:00 a.m.

Come show your opposition by
wearing red and making public comments remotely.

The Arizona Corporation Commission WANTS MORE INPUT from Apache County Towns and residents

If you cannot attend, Submit a Public Comment to the AZ Corp. Commission

Be sure to use the words "Interconnection Line" in your oral and written public comments. This is what they are approving or denying (not the Wind Farm).

Scan QR to go
to page or
follow
directions

1. Go to azcc.gov
2. Click Divisions
3. Select Utilities
4. Scroll down and click Public Comment Form
5. Fill Out the Form
6. In the Company Name box, begin typing: CG Apache County Wind LLC, then select it
7. The docket number will auto-fill (Docket No. L-21364A-25-0198-00250)
