### **ABOUT THE FRONTIER HOUSE**

The Frontier House opened in 1825 and is considered to be one of Western New York's iconic historic landmarks and is a central and integral part of Lewiston's business district. When it opened, it was recognized as the finest hotel in the United States west of the Hudson River. The Frontier House is constructed of stone from the Bay of Quinte at the Northeastern end of Lake Ontario. Eighteen men worked eighteen months in laying up the solid stone 30 inch walls. Stage coaches once thundered up to its doors when it served as a stop when Lewiston was the center of the "Great Overland Route Across the Continent."

The Frontier House was last occupied in 2004 when it was a McDonalds.
