

# Home Organizing Services

## How do I get started and how does it work?

**Initial Consultation Phase:** Call us for a complimentary 30-minute phone consultation. Typically, a potential client will present all their reasons for calling and why they need someone to help them get organized. To get a clearer picture of your situation, we may need to ask additional questions to answer the who, what, when, where, why, and how questions. All of which helps us to assess the solutions and how much time it may take to organize your home or space.

**Who?** Do you live alone? Are there family members in the home? Are there pets? Children?

**What?** Are there any systems that are working for you or not working? Which areas give you the most pain? Ideally, how do you want the space to look and feel? Do you want to create a particular atmosphere? Are you purging items before organizing?

**When?** Is there a timeline? Are weekdays or weekends best for you to work together?

**Where?** Which space(s) are causing overwhelm, stress, loss of productivity, and confusion?

**Why?** What triggered you to call us? Is there a life transition taking place, such as a marriage, children, downsizing, etc.? Did you recently move to a new home and unpack but need more time to organize with systems in place? Have you lived in the same home for many years and too many things have accumulated?

**How?** Would you like to take part in every step of the process? Do you prefer to give the home organizer your preferences and let them execute the organizing?

These questions and responses help me visualize the spaces and your needs so we can develop solutions for you.

**One or two spaces?** If only one area needs our expertise and we can declutter and organize it in 4-6 hours, I will ask you to send me photos, and then we can schedule a work session, sign an agreement, and get started.

## Several spaces?

If you need various spaces, we can schedule an On-Site visit and gather more details for a better assessment of time. The assessment is \$55 for 60 minutes and if you decide to move forward with our services, we will apply a \$55 credit towards your agreement.

## On-Site Assessment: 60 minutes

We will schedule a tour of your home, and you will show me the space(s) that need our expertise. I will listen for cues and clues that will trigger more questions and share some quick solutions that can help you see the possibilities for space. For example, I may say, "we can go vertical here to maximize the space," or "let's consider an Elfa unit to categorize the supplies," or "let's make use of the back of the door."

After the visit, I will give you an estimate of hours and a list of organizing supplies to achieve the result you want; then, we will schedule the first working session, sign an agreement, and get started. Sometimes, I will give you homework to prepare for our first session.

## Supplies:

I can purchase all organizing bins, containers, and supplies. On the day of the project, I will bring the supplies. You will only be charged for the items used, and there is no upcharge.

Call 832-686-4731 for a Free 30-Minute Consultation

We organize spaces and create systems to help our clients feel free and empowered. If you're ready for a sense of newness and ability to do more, contact us soon.
