

Senior Assassin Rulebook:

1. Be an honest player. If you are assassinated, own up to it. No removing your sticker. If cheating is reported, you will be removed from the game.
2. No assassinating someone during their class.
3. If you are between classes, you will be safe if a freshman is touching your backpack (you must be holding or wearing it).
4. If you and your target are both in a free period, you can get them out (while not inside of a classroom or the library).
5. If class is over, you may wait outside for your target to leave the room. You may NOT go into the classroom to get them out. If we receive a complaint from a teacher, you will be added to the bounty list or may be removed from the game.
6. If you are currently in class and see your target outside, you may not leave class to get them out.
7. You will not be considered safe in a classroom if it's a class that you're not attending. For example, if you are in a free block, you can't spend time in a classroom to be safe.
8. If you have a pre-arranged meeting or organized activity (Flex, assembly,

meeting with a teacher), you will be safe at said meeting.

9. Lunch is not a safe zone unless you are sitting at a table with at least one underclassmen (freshman and sophomores are allowed). You can get out while waiting in the lunch line as long as you are outside the pavilion building. The pavilion building is a safe zone.

a. Being in a classroom during lunch is not safe, unless you are in a pre-arranged meeting or organized activity.

10. Bathrooms are safe areas. However, you are not safe during your walk to the bathroom. Physically being in the bathroom means you're safe.

11. Assassin doesn't end at 3:05pm. People can still get you out on your way to your car or getting picked up. Once you're in the car, you are safe. After your practice or games, you can get people out who are still on campus and they can get you out.

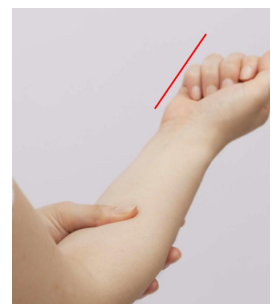

12. Starting the second week, there will be ways to be safe on campus. These will be announced at the start of each new week. Make sure to check your email and the Instagram (@ljcdsassassin2022).

13. Holding onto the bell tower is a safe zone, as has been in years past.

14. Assassination can only be done by placing a sticker with your name on it on your target. Stickers will be provided in the Upper School office. You must put the sticker anywhere below the elbow crease on your arm (front or back). Stickers can be placed on skin or sleeves.

15. Proof of assassination must be done via picture, video, or both. Failure to show proof means your kill WILL NOT COUNT. Please email proof of the assassin to ALL of the game masters (Lucy, Caroline, and Tavisha).

16. If you are at the top of the leaderboard, your assassin can only put the sticker on your hand (front or back).

- a. Conversely, if you have not assassinated anyone after a certain period of time (TBD), you will be put on the bounty list. The bounty list allows you to be assassinated by anyone for a two-day immunity reward.
- 17. If you are outside running from your assassin, your friends are NOT permitted to physically obstruct your assassination. Conversely, you may NOT have your friends physically obstruct your target from escaping. This game is meant to be played sneaky and athletic, not by being shady and unfair.
 - a. If you get caught blocking your friend, you are also at risk of being put on the bounty list or being removed from the game.
- 18. There are ways to help your friends with assassinating someone or avoiding assassination. You are permitted to tell people where their targets or assassins are, but don't stalk them. Be respectful toward a target's/assassin's friend group, don't interrogate them for information.
- 19. Any challenges over elimination can be discussed with Lucy, Caroline, and Tavisha. Their word is final. Further challenging their decision may result in being barred from returning to the game.
- 20. THIS IS SUPPOSED TO BE A FUN GAME THAT IS SHARED BY SENIORS. IF THERE ARE ANY REPORTS OF TOXICITY (NAME CALLING, CURSING SOMEONE OUT, NEGATIVITY), YOU WILL EITHER BE ADDED TO THE BOUNTY LIST OR BANNED ENTIRELY.
