

APTOGENIX

Enhanced ADK

Supplement Facts

Serving Size: 1 Capsule

Servings per Container: 30 Servings

	Amount Per Serving	% Daily Value
Vitamin A (as retinyl palmitate)	900 mcg (3,000 IU)	100%
Vitamin D (as cholecalciferol)	125 mcg (5,000 IU)	625%
Vitamin K2 (as menaquinone, MK-7)(MenaQ7®)	180 mcg	*
Vitamin K2 (as menaquinone, MK-4)	500 mcg	*
Delta-tocotrienol & Gamma-tocotrienol (DeltaGold®) (from annatto fruit)	50 mg	*
Geranylgeraniol (GG-Gold®)(from annatto fruit)	5 mg	*

*Daily Value not established.

Other ingredients: Hydroxypropyl methylcellulose (capsule), bamboo shoot and leaf extract.

Enhanced ADK may support:

- Bone and teeth strength and density*
- Heart health and circulatory system*
- Immune system function*
- Thyroid gland function*

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Enhanced ADK combines therapeutic amounts of Vitamins A and D together with multiple forms of Vitamin K2 and Vitamin E isomers (tocotrienols) in a single capsule.*

Vitamin D is involved in regulating the absorption of calcium, which impacts bones and teeth.*

Vitamin D is also involved in immune system function. Lower levels are associated with increased respiratory infections.*

Vitamin A is provided in the retinyl palmitate form, which is preformed Vitamin A and does not require conversion in the liver and instead is readily usable. Vitamin A is important for vision and eye health, as well as bone and thyroid gland, and immune system function.*

Vitamin K2 activates a protein involved with integrating calcium from the blood into bones and teeth, also possibly playing a role in preventing calcium deposits that can turn into plaque in the arteries.*

Vitamin E isomers have antioxidant activity that can help combat the potentially damaging effects of free radicals in the body.*
