

HEAR OUR VOICE POLICY STATEMENTS

POLICING

Hear Our Voice supports State and Territory Governments in their provision of high quality training and appropriately resourced police services in each jurisdiction.

Hear Our Voice believes that the important work done by police services should be supported through appropriate funding and wages. We believe police services should undergo reviews to ensure they are free from corruption and deficient practices to enhance their capabilities, reputation and public confidence.

Hear Our Voice believes police services should have the capacity and capability to work in conjunction with emergency services and the Australian Defence Force, including assistance in peace keeping activities where a policing role is needed.
