- SSTI

Rx

# Clamopod-325

*Results with better Efficacy & Safety*

*In case of* **Productive cough**

Rx

# MUCOPEX

Ambroxol Hcl 15mg, Terbutaline Sulphate 1.25mg,  
Guaiphenesin 50mg and Menthol 2.5mg Syrup

## Terbutaline

 The Bronchodilator that relaxes bronchial smooth muscle

## Ambroxol

 Liquifies thick & Tenacious sputum so eases expectoration

## Guaiphenesin

 Effective mucolytic & muco-kinetic agent  
Facilitates sputum expulsion

## Menthol

 Instant soothing effect, Protective anti-oxidant action

## Indication :

**Bronchial Asthma, Chronic Bronchitis,  
Productive Cough & COPD**

Rx

# MUCOPEX

***Clears Airway & facilitates breathing***

*Relieve the agonizing symptoms of*  
Rx **Cough, Cold & Congestion**

# MUCOPEX-D

Dextromethorphan 10mg + Phenylephrine 5mg &  
Chlorpheniramine maleate 2mg Syrup

## Dextromethorphan

 Centrally acting anti tussive that controls the cough completely

## Phenylephrine

 Superior decongestant - counters congestion associated with cough

## Chlorpheniramine maleate

 Most trusted Anti-Histamine : arrests histamine induced cold

Rx

# MUCOPEX-D

***For prompt relief from Cough, Cold & Congestion***

Rx

To relieve from  
symptoms of  
**ALLERGY**

# Levotek-M

Montelukast 10mg and Levocetirizine 5mg Tablets

- Relieves symptoms of Allergic Rhinitis
- Reduces the severity and episodes of Asthma
- Minimizes the use of inhaled steroids

*Indication :*

- Allergic Rhinitis
- Chronic Urticaria
- Bronchitis associated with Asthma

Rx

# Levotek-M

**Defeats Allergy Treats Rhinitis**
