# INTERNATIONAL CERTIFICATIONS

We are the first company in our field to obtain ISO 9001:2008 certification issued by IQS Corporations, which reaffirms our commitment to offering products of the highest quality. We are also certified with ISO 9001:2015. Our armored garments hold valid certifications for ballistic resistance, under the following standards from the United States National Institute of Justice:

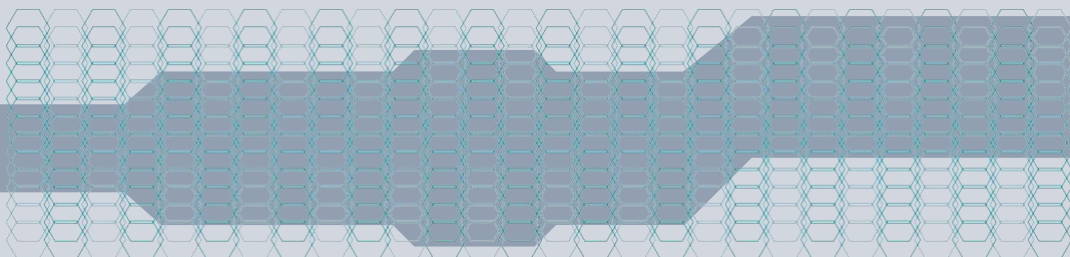

- ✓ NIJ STD 0101.04 and NIJ 2005 Interim Requirements
- ✓ NIJ STD 0101.06 NIJ MARK Authorized
- ✓ NIJ STD 0115.00 Anti-stab and Anti-cut
- ✓ Test: NIJ STD 0106.01 Bulletproof Helmets
- ✓ Test: NIJ STD 0108.01 Bulletproof Shields

Why buying a

# Protection Vest?

- ➔ With over 20 years of experience and a \$20,000,000.00 liability insurance policy, we are a leading Latin American company.
- ➔ Designs that adapt to your needs.
- ➔ We offer more than 15 models certified by the United States National Institute of Justice, making us the number one choice in the region.
- ➔ All our models feature an “an trauma” system that reduces impact and prevents injuries from bullet strikes.
- ➔ Our quality is nationally and internationally recognized with ISO 9001:2015 accreditation.
- ➔ Our ceramic plates are the only ones certified with the shrapnel retention system.
- ➔ We provide the highest market guarantees for the performance of our products, ranging from 5 to 10 years for ballistic materials.
- ➔ We have the largest stocks in the market to provide you with the best delivery times.
- ➔ We offer the best prices in the market. The materials we use in our armor are state-of-the-art and provide the highest safety margins.
- ➔ We have highly trained personnel to offer you the best technical and after-sales service.

Armors with

# NIJ STD 0101.06 NIJ MARK Authorized CERTIFICATION

- ▶ The durability of the panels is accredited by providing flexibility through the "tumbling" wear test.
- ▶ The rigid plates (Level III and IU plates) undergo a drop test for impact resistance and are exposed to a temperature of 90°C.
- ▶ They stop the calibers mentioned in the standard, as well as any impacts from calibers equivalent to or lower than those mentioned in the list.
- ▶ All our vests have certification from C1 to C5.
- ▶ All vests are audited by INTERTEK TESTING SERVICE.
- ▶ The labels have passed durability tests on the ballistic garments.
- ▶ The panels have passed immersion in water according to NIJ STD 0101.06 standard. NIJ MARK Authorized.

# PANELS & COVERS

# AZTEC Panel With DELTA cover

- The ballistic panels are made from unidirectional aramid fibers.
- Innovative anti-trauma system composed of low-density foam and unidirectional aramid fibers with a synergistic design to reduce and stabilize trauma caused by projectiles.
- The anti-trauma system is soft and lightweight, with no rigid film.

Protection level <b>III-A</b>	Model <b>AZTEC</b>	Certification <b>NIJ STD 0101.06</b> <b>NIJ MARK Authorized</b>

- Manufactured using Ultra High-Density Polyethylene fibers, cutting-edge unidirectional laminates, with an encapsulated anti-trauma system that reduces rigidity when separated from the ballistic panel.
- ADVANTAGES
  - \* 15% lighter
  - \* 50% thinner
  - \* 1 year more warranty
  - \* Better V50 performance
  - \* More flexible
  - \* The best bulletproof vest on the market.

# JAGUAR

with Subsemun cover **PANEL**

Level of protection <b>III-A, Spike II Edge Blade II</b>	Model <b>JAGUAR</b>	Certification <b>NIJ STD 0115.00 NIJ STD 0101.06 NIJ MARK Autorizado</b>

The ballistic panels are manufactured using state-of-the-art unidirectional aramid fibers combined with woven aramid fibers coated with carbon silicate.

They feature an integrated anti-trauma system that not only provides protection against impacts but also mitigates the trauma caused by ballistic impact.

- Advantages of the JAGUAR Model:
  - Vest with triple protection (Level III-A Spike II and Antinavajas, Edge Blade II)
  - Flexible and ergonomic design.
  - Anti-trauma system that reduces the trauma caused by projectile impacts to almost zero.

## LEVEL III

# BALLISTIC PLATE

Ballistic plate that features a triple anti-trauma system for standalone use (Stand Alone).

This plate is highly recommended for public safety personnel in tactical situations or special forces, as it provides protection against long firearms.

Level of protection <b>III</b>	Model <b>PE3-01</b>	Certification <b>NIJ STD 0101.06 NIJ MARK Autorizado</b>

Triple anti-trauma system

Stand Alone System

Provides protection against long firearms.

# BALLISTIC PLATE

# CUSTOM DESIGN

- Effective Shrapnel Protection System.
- An innovative system that protects the plate from fractures in case of accidental drops.
- Spaced anti-trauma system that reduces energy tension upon contact.
- Made with 500-denier Cordura Nylon lining for maximum strength and protection.
- The highest ballistic resistance limit in the world, verified by a laboratory.
- Protects against shots at the edge of the plate.

Protection level <b>IV</b>	Model <b>PC4-02</b>	Certification <b>NIJ STD 0101.06</b>
Dimensions <b>10"x12"</b>	Tested <b>Stand Alone</b>	Warranty <b>10 years</b>
Ballistic material <b>Alumina Oxide, Ballistic Polyethylene, and Aramid Fibers</b>		Colors 

Highest V50 in the Market

The lining is made of 500-denier Cordura nylon, ensuring maximum protection.

# BOMB Blanket

- Level III-A protection.
- V50 fragment. 1,900 ft/s for 9 g lead projectiles, made of aramid fibers.
- Case with 8 automotive-type strap handles for transportation, includes 40 cm diameter ring.
- Dimensions: 160 cm long - 160 cm wide.
- Lined in 500 denier nylon
- Includes backpack for transportation.

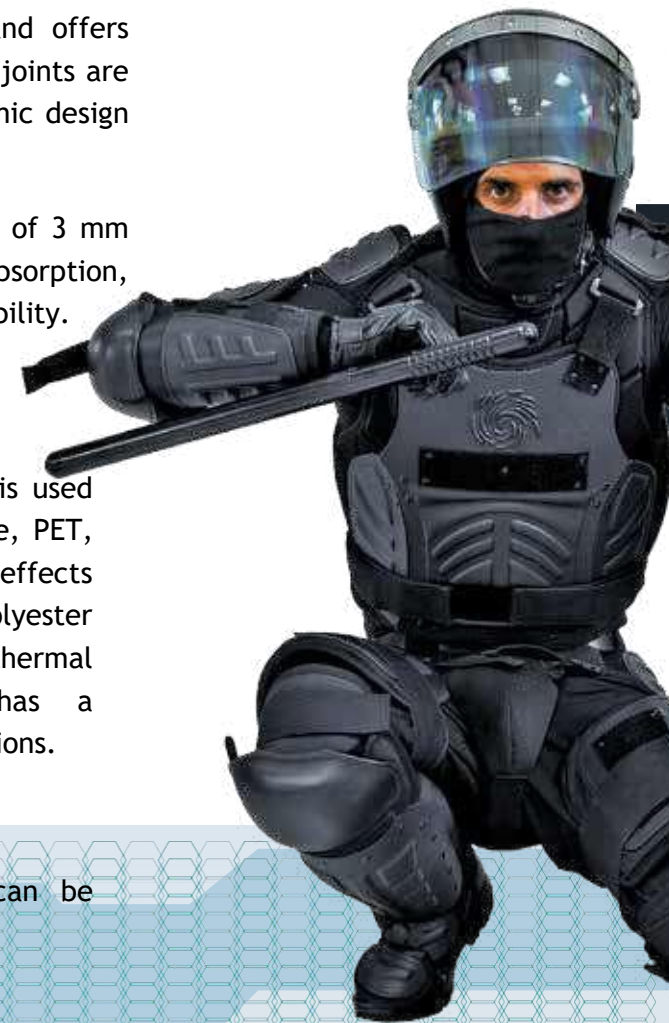

# RIOT GEAR

# RIOT Gear

## SPIA

- The equipment protects the body from blows and impacts caused by objects and offers maximum mobility of its kind. The joints are free for movement and its ergonomic design adapts perfectly to the body.
- All the equipment's armor is made of 3 mm thick PET for better impact absorption, properly articulated for greater mobility.
- A high-density polyurethane foam is used in three-layer format (polyurethane, PET, polyurethane) which minimizes the effects of impacts. It comes with a polyester cover and breathable polyester thermal mesh. The foamed material has a ventilation system through perforations.

III-A ballistic protection panels can be inserted.

The gear is composed of:

## Chest and Back

## Groin

## Arms

*\*Includes transport bag*

## Shin pads

*\*Boots not included*

# RIOT SHIELD

- Made of polycarbonate with "Police" label.
  - Adaptable handle.
- Size options:
- Traditional: 90×50 cm
  - Gladiator: 120×60 cm

# RIOT HELMET

Made of high-resistance polycarbonate, the material provides unique resistance to all types of forceful blows. Airtight closures on the upper part prevent the entry of flammable or corrosive liquids to the user's face. Additionally, neck protection.

Hermetic Closure

Comfortable and easy to clean.

Neck protection

\*Chin adjustment to prevent mobility

# RIOT HELMET - BUBBLE

Outer shell made of injected high-density ABS plastic, very resistant to impacts, 4 ±1mm thick.

Horizontally it has 3 breathing holes on the back. 12.5 mm external diameter internal mesh.

Spherical mask design allows use in conjunction with gas masks without skimping on resistance since its thickness is 5 mm, in addition to having a superior packaging that prevents liquid leak.

It comes with 3 breathing holes with internal mesh.

# ANTI-SPLINTER MASK

- Anti-splinter mask made of 4mm thick polycarbonate, with self-adjustable ring to be placed on the PASGT ballistic helmet.
- Recommended for tactical and army groups.
- Does not obstruct the use of gas mask.

# RIOT FOREARM SHIELD

- The shield is made of a high-strength aluminum alloy. On the front it is equipped with a spike anti-grip system, to prevent it from being stripped in case of disturbance.
- Attachment to break glass, crystals or windows on one of its edges
- Measurement of 45x 10 cm.
- A BLUE and RED warning light can be attached to one end of the shield.

## SHORT - RIOT GLOVES

- Sizes S, M, L and XL.
- 
- The image displays three views of a black leather motorcycle glove. The top view shows a clenched fist, highlighting the knuckle protection and finger padding. The bottom-left view shows the back of the hand, featuring a textured leather surface and a wrist strap. The bottom-right view shows the side of the hand, emphasizing the finger padding and the overall fit. A small circular logo is visible in the upper left corner of the image area.

## RAPELLING GLOVES

# TONFA-CANES

## “KENDO” Type Cane

Made of polycarbonate, 36” long.

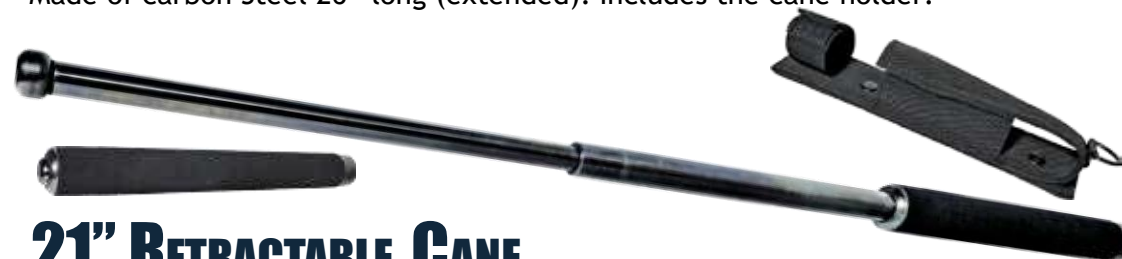

## PR-24 Cane

Made of 24” long polycarbonate.

## 26” RETRACTABLE CANE

Made of carbon Steel 26” long (extended). Includes the cane holder.

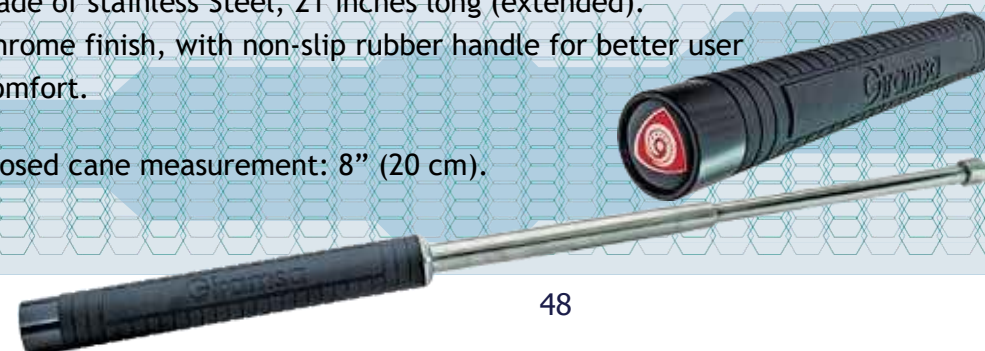

## 21” RETRACTABLE CANE

Made of stainless Steel, 21 inches long (extended).

Chrome finish, with non-slip rubber handle for better user comfort.

Closed cane measurement: 8” (20 cm).

# SIDE LEG Cover

Made of black nylon fabric, reinforced seams, includes strap to secure the belt, 2 straps to hold the leg firmly. It can be a gun holster with a magazine holder or a revolver holster.

Ask about the variety of models and materials

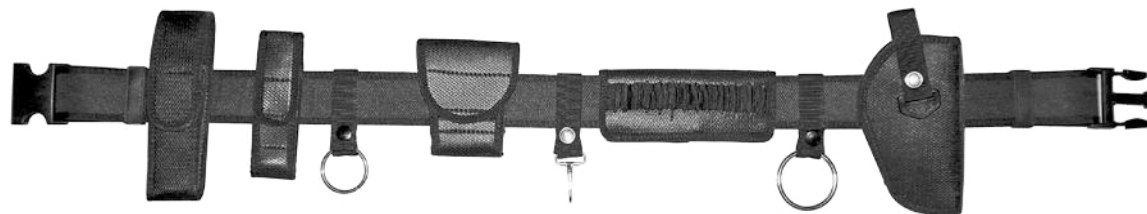

# FABRIC Findings

Made of black canvas or polyester, with a plastic core, adjustable with velcro and plastic buckle (SAMS), with safety at the ends.

It is offered with various accessories that can be sold together or separately: Holster for pistol or revolver • Magazine holder

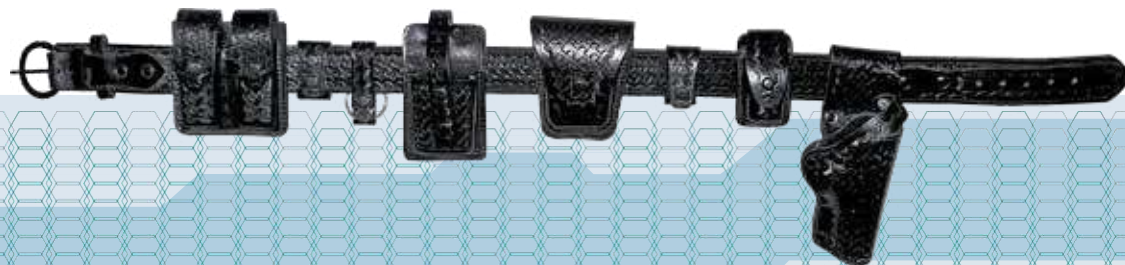

- Cheek pad • Gas holder • Tonfa holder • Tolete holder • Handcuff holder • Key holder • Lamp holder • Radio holder • Knife holder.

We can also design any other accessory that can be used on the belt.

# LEATHER Findings

Color: black. Metal buckle, with 7 accessories and sash. (Offered with the same accessories as the fabric findings.)

# HANDCUFFS

## HINGE HANDCUFF

Made of carbon steel with a nickel-plated finish, with double insurance, weight 300 g, with a 15-point zipper and three high-strength links. Includes two standard opening keys.

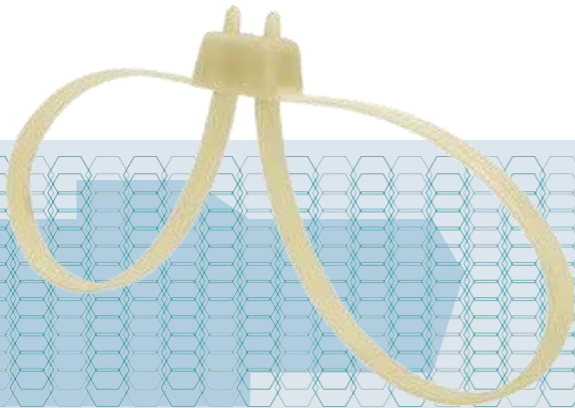

## CHAIN HANDCUFF

Made of carbon steel with a nickel-plated finish, with double insurance. Weight 320g, with 21-point, three-link heavy-duty zipper. Includes standard opening keys.

## FASTENING STRAP

Made of high resistance nylon. To be used in both hands.

## LEG SHACKLE

Made of carbon steel with satin nickel-plated finish, weight: 580 gr, with double insurance, includes two standard opening keys.

# CHILI-BASED DEVICE

With trigger type trigger or two-step trigger, made from 100% OC, oleoresin capsicum. Capacity: 135gr.

# GAS Mask

High resistance calcium polycarbonate product, anti-fog at low temperature, low leakage coefficient, wide field of vision, easy to use and remove, adjustable, offering safety and comfort. The filter with quality activated carbon (catalyst) and high-efficiency felt filter that offers the best protection against various smoke tonics, smog, gas mixtures, germs, radioactive dust and particle loid gas.

# HYDRATION SYSTEM

It is the practical solution to keep your items always hydrated.

It offers an economical design • Storage container is flexible allowing the mobility of the user, as it is carried on the back • Dispensing the moisturizer through a tube that is directed to the mouth, allows hands-free drinking.

# Multipurpose BACKPACK

Made of nylon • Different designs

# PORTABLE COT

Made of canvas, with aluminum frame. Measurements: 180x90x50 cm.

Maximum weight capacity: 100 kg.

*Includes transport bag*

# INTERVENTION

## METALLIC BATTERING RAM

30 inches (76 cm), ideal for Wood and metal door opening, it comes with 2 handles, for one or two users, 4" diameter. The extension is able to open

5.5" long and 1.7" diameter metal doors. Made of carbon Steel. 100% mexican product

## CUTTING PLIERS

Steel-lock breaking. Advanced polymer handles and light weight. Dimensions: 24" (60 cm), cutting opening 3/8", weight: 5.25 pounds (3.5 kg)

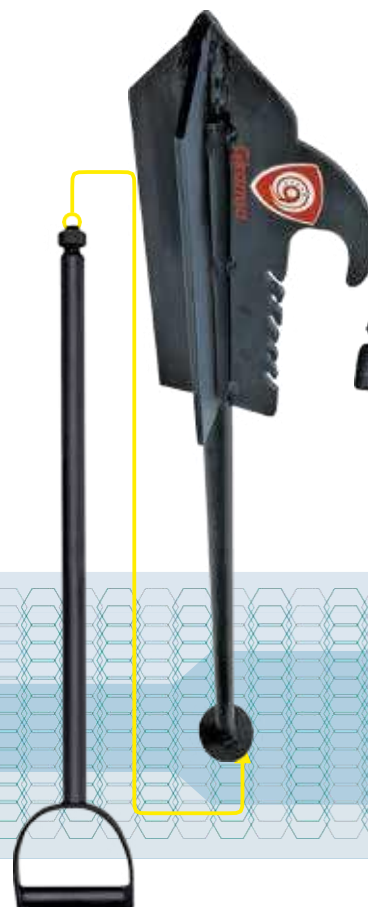

## INTERVENTION Mallet

Ideal tool for hitting rigid surfaces. It has a 35" long and 5" diameter wooden handle.

## WINDOW- OPENING Hooks

73" Halligan type tool (Disassembled: 30") for multiple uses. Ideal for the opening of doors and Windows. Made of carbon Steel, it guarantees its quality and functionality

## IRONWORK Window- Opening Hooks

Halligan type tool set, consisting of two independent pliers. The first is 35" long and 3.5" diameter. The second one is 24" long and 2.5" diameter.

Ideal for door and Windows opening. Made of carbon Steel, it guarantees its functionality

## VEHICLE INSPECTION MIRROR

Designed to have a control of vehicle entry in parking areas and to detect potential hidden dangerous objects. 30cm concave mirror.

Includes LED lamp.

9-LED lamp

# LAMPS

## SPOT LIGHT LAMP

Rechargeable LED Lamp. More luminous energy with less charge. The parabolic reflector is computer-designed to focus the light beam to the maximum..

### 5-LED LAMP

Manufactured in black anodized aluminum with a non-slip grip handle, with a total power of 15W, it achieves lighting comparable to a spotlight and is five times brighter than a regular lamp.

Flashing Code: high intensity, low intensity, SOS, blinding light flashing.

# DETECTOR

## 1-LED Lamp

# LAPEL CAMERA

Dust and water-resistant. 120° angle view. Resolution above 1296p. 2.00-inch screen. Battery life: 10.2 hours. Memory options: 16GB, 32GB, 64GB (optional). Weight: 110 grams. Dimensions: 83mm x 55mm x 28mm.

## Light Baton

For road use, with constant light and intermittent flashing, 21" long and a diameter of 5 cm in the tube. (Batteries Not Included).

## Traffic cones and Tambourines

Cone made of high-visibility orange PVC with a black base. Measures 91 cm, 71 cm, and 45 cm. Optionally, it can include reflective material.

# Satelital Phone

## GPS-1700

No matter how far away you are from your workplace, Globalstar will be with you, providing digital voice and data communication services almost worldwide, using Code Division Multiple Access (CDMA) technology in combination with a constellation of 40 Low Earth Orbit (LEO) satellites.

Benefits:

- \*Compact size.
- \*Excellent Voice Fidelity Without Tracking.
- \*Photosensitive screen that brightens or darkens according to the environment.
- \*Long-lasting battery.
- \*Ergonomic design.
- \*Backlit keypad.

It delivers data at a speed of 9.6 kbps and also provides location services with your latitude and longitude from your Globalstar phone.

*A Small Phone with Huge Possibilities!*

# PROTECTION

Protection

## Reflective Jacket

Material: 150D Oxford with water repellent coating.

Color: Reflective yellow.

Features: LED circuit, lithium battery, 5-hour charging time, 4 flash modes.

## LED Reflecting vest

- Made of PVC mesh material.
- Features two parallel 2-inch micro-prismatic reflective tapes at the front and a V-shaped pattern at the back.
- Internal LED lights with 20,000 mcd luminosity.
