When Mr. Garcia, President of Garcorp International, Founder of Lambda Theta Phi and National Chair of Lambda Theta Phi Foundation was asked what this recognition meant to him. He advised, "that where one man or woman are denied the rights of the Universal Declaration of Human Rights then all human beings are being denied their rights. I have felt and witnessed the sting of tyranny, discrimination and in just. Thus I refuse to live on my knees and thus my head is bloody but never bowed. We have a global task of assuring the quest of human rights for our global community."
