

The EMI Purpose

EMi was created to manifest essential readiness activities for organizations and businesses to be prepared for, respond to, recover from, and mitigate loss to the maximum extent possible from varying threats and hazards.

Why EMI?

We offer professional emergency preparedness and continuity preparedness expertise by bringing you a comprehensive customized approach to your organization or business' emergency management and/or continuity program(s) needs.

Who do we serve?

We understand each program is unique and it's our opportunity to bring emergency management and/or continuity solutions to further prepare your organization or business for an incident or event.

EMi Services

Emergency management and continuity assessments, planning and evaluation.

<p>Assessments</p> <p>Establishing an organizational or business assessment profile helps planners determine whether courses of action are feasible. Assessing risks, estimating and validating capabilities are critical to understanding gaps in plans, resources, or training to mitigate and/or stabilize events or incidents. Our assessments provide and determine current capability levels, establish target levels, and identify courses of action for funding and/or planning.</p>	<p>Emergency and Continuity Planning</p> <p>Developing the appropriate emergency plans, policies, or procedures allows for a methodical approach to managing risks by clearly defining the organizations or business' mission, determine priorities, objectives, and strategies through equitable and whole community inclusion.</p> <p>Building resilience into organizational or business processes is essential to seamlessly ensure continued operations, minimize disruptions, and reconstitute post event or incident efficiently.</p> <p>Our assessment, risk, vulnerability, and after-action/lessons learned-based strategic, operational, and tactical level planning provides avenues the organization or business can own to prepare staff, and organize and stabilize responses for events or incidents.</p>
<p>Exercise and Evaluations</p> <p>Testing your plans, policies, and procedures through exercises and evaluations against the threats and hazards your organization or business faces in low-risk, cost effective settings, significantly contribute toward improved preparedness capabilities. Our discussion-based workshops and exercises provide the ideal environment for improved collaboration among internal and external stakeholders before an event or incident occurs.</p>	
<p>Assistance</p> <p>Monthly, quarterly, or annual service and support to an on-call emergency manager, assessor, emergency and continuity planning, and exercise design specialist and improvement planner.</p>
