

AQUASCAPE

POOL TECHNOLOGIES

Zinc Anode/Water Bond

MODEL AQST-Z-AN

Zinc anode will gradually sacrifice itself to help and protect metal parts (pumps, salt chlorinators, pool lights etc.) from electrical corrosion. Pool owners can use a zinc anode to combat the corrosion of other critical metals in the pool.

- 2" plumbing compatible
- Includes 2 ft #6 Bond wire and split bolt

*Quality. Performance. Innovation.
Delivering market changing solutions.*
