

POOL PARTS AND ACCESSORIES

Zinc anodes

ZN-A

zinc anode will gradually sacrifice itself (corrosion) to help and protect metal parts (pumps, salt chlorinators, pool lamps, etc.) from electrical corrosion. Pool owners can use a zinc anode to combat the corrosion of other critical metals in the pool.

Specifications

Pool type	Salt Pool
Pipe Size	2" plumbing
ZN-A	115 -150 m ³ /40,000 gallon/150,000 ltrs
Unit Size	22.5*13.5*10.5cm
