INDUSTRIAL CONSULTING —
(INDIA) LLP .

Engineering Indian Manufacturing to Global Standards

"To be the trusted one-stop partner for manufacturing industries by delivering excellence in Compliance, Consulting, and Strategic Sourcing, enabling businesses to become efficient, compliant, sustainable, and globally competitive."

Driving Growth Through Compliance, Consulting & Sourcing

About Us

INTEGRAA Industrial Consulting (India) LLP was established with a clear mission — to transform Indian manufacturing industries into globally benchmarked, structured, efficient, and performance-driven organizations aligned with international standards and best practices.

We work closely with businesses across diverse sectors, including furniture, wood, metal fabrication, mining, stone processing, textiles, chemicals, engineering, plastics, consumer goods, and other manufacturing industries, helping them strengthen operational systems, improve productivity, ensure regulatory compliance, and enhance global competitiveness.

Our approach is based on practical, on-ground implementation rather than theoretical consulting. We partner with organizations to deliver measurable improvements in productivity, quality, cost optimization, compliance management, supply chain performance, and overall business profitability.

Leadership

Mr. Girish Mehta

Bringing over 30 years of industrial experience across automotive ancillaries, furniture manufacturing, and metal fabrication, Mr. Girish Mehta specializes in building structured and efficient manufacturing systems.

He has successfully established and led manufacturing units from concept to stable production, with expertise in factory process design, production workflows, machine selection, layout planning, quality systems, and cost optimization.

His vision is to elevate Indian furniture manufacturing to global standards of quality, efficiency, and system-driven operations.

Mr. Gouri Shanker Kumawat

B.Tech (Mechanical – Honours) with 10+ years of hands-on factory experience in furniture and allied industries, Mr. Kumawat specializes in industrial sourcing, manufacturing systems, and compliance management.

He has strong expertise in global sourcing, factory operations, SOP implementation, quality control, and cost optimization across wood, upholstery, fabrication, and stone processes.

He is well-versed in international compliance standards including FSC, EUDR, SEDEX, and CTPAT, along with BIS and Indian regulatory systems—ensuring factories remain audit-ready and globally competitive.

Our Vision

"To empower Indian manufacturing industries to achieve world-class standards of excellence, efficiency, and global competitiveness. We partner with visionary organizations that aspire to transform their operations into structured, scalable, compliant, and future-ready enterprises. Through engineering excellence, advanced technology, operational discipline, strategic sourcing, and execution-driven leadership, we help businesses build sustainable manufacturing ecosystems that drive innovation, productivity, profitability, and long-term growth while meeting the highest national and international standards."

Our Services

"INTEGRAA delivers integrated industrial solutions covering Compliance, Consulting, Engineering, Sourcing, Automation, Project Management, Process Optimization, Manufacturing Excellence, and Operational Transformation. We combine deep industry expertise with hands-on execution to build world-class manufacturing facilities that are productive, scalable, compliant, and future-ready."

"Concept to Commissioning. Compliance to Competitiveness."

Our Offerings

At Integraa Industrial Consulting (India) LLP, we provide world-class industrial consulting, compliance, engineering, and strategic sourcing solutions for manufacturing industries. Our expertise spans factory setup, process optimization, automation, project execution, statutory approvals, global compliance, machinery and equipment sourcing, supply chain development, and operational excellence. Backed by experienced industry professionals and a strong network of global partners, we help organizations build efficient, compliant, scalable, and globally competitive manufacturing operations. From sourcing the right solutions to implementing world-class systems and securing regulatory and international compliance approvals, INTEGRAA serves as a single-window partner for complete industrial transformation and sustainable business growth.

"One Partner. Complete Industrial Solutions."

Our Team

Mr. Arabind Banerjee

A seasoned engineering professional with 37+ years of experience in industrial transformation and operational excellence. He specializes in Program Management, Industrial Engineering, and CAPEX execution, driving productivity improvement, process optimization, and strategic growth. Known for his structured, results-driven approach, he consistently delivers measurable business outcomes and sustainable value.

Mr. Neeraj Bhargava

A seasoned manufacturing professional with rich experience in R&D and industrial operations, having held senior leadership roles in one of India's leading bearing manufacturing organizations.

He specializes in social and technical compliance, including FSC, EUDR, SEDEX, CTPAT, and wood & timber management systems. With a strong focus on sustainability and global standards, he helps organizations build compliant, transparent, and responsible supply chains.

Mr. Rambax Inaniya

A Mining Engineer and First-Class Mines Manager with 35+ years of experience in mining operations, statutory compliance, environmental approvals, and large-scale project execution across India and Indonesia. He has successfully led mining and infrastructure projects involving coal, stone, limestone, iron ore, and other mineral operations, with expertise in mine planning, production optimization, HEMM management, regulatory liaison, and environmental compliance. His extensive industry experience enables organizations to achieve operational efficiency, regulatory excellence, and sustainable project growth.

Mr. Suraj Ojha

Senior Engineering & Maintenance Professional with 25+ years of diversified experience across healthcare, hospitality, manufacturing, and industrial sectors. Proven expertise in project execution, plant setup, pre-opening support, utility management, facility operations, and maintenance systems, delivering reliable and efficient operational performance.
