INDUSTRIAL CONSULTING —
(INDIA) LLP .

Engineering Indian Manufacturing to Global Standards

To transform the Indian furniture industry into a world-class manufacturing benchmark — driven by structured systems, advanced technology, operational excellence, and global compliance standards, we turn to expert guidance from INTEGRAA, a leader in industrial consulting in India. We envision building factories that are efficient, scalable, export-ready, and competitive on the global stage, with the support of a solid wood furniture manufacturing consultant.

About Us

INTEGRAA Industrial Consulting (India) LLP was established with a clear mission – to transform Indian furniture manufacturing into a globally benchmarked, structured, and performance-driven industry aligned with international standards. We work closely with manufacturing units to strengthen their factory systems, operational efficiency, compliance readiness, and global competitiveness. Our approach focuses on practical, ground-level implementation rather than theoretical consulting, ensuring measurable improvement in production, quality, and profitability.

INTEGRAA specializes in supporting furniture, wood, stone, metal, and upholstery manufacturing units in building strong operational foundations through process optimization, factory structuring, sourcing strategies, and global compliance readiness.

Leadership

Mr. Girish Mehta

Bringing over 30 years of industrial experience across automotive ancillaries, furniture manufacturing, and metal fabrication, Mr. Girish Mehta specializes in building structured and efficient manufacturing systems.

He has successfully established and led manufacturing units from concept to stable production, with expertise in factory process design, production workflows, machine selection, layout planning, quality systems, and cost optimization.

His vision is to elevate Indian furniture manufacturing to global standards of quality, efficiency, and system-driven operations.

Mr. G. S. Kumawat

B.Tech (Mechanical – Honours) with 10+ years of hands-on factory experience in furniture and allied industries, Mr. Kumawat specializes in industrial sourcing, manufacturing systems, and compliance management.

He has strong expertise in global sourcing, factory operations, SOP implementation, quality control, and cost optimization across wood, upholstery, fabrication, and stone processes.

He is well-versed in international compliance standards including FSC, EUDR, SEDEX, and CTPAT, along with BIS and Indian regulatory systems—ensuring factories remain audit-ready and globally competitive.

Our Vision

To empower Indian manufacturers, especially in the Indian furniture manufacturing sector, who aspire to transform their systems to global standards. We partner with visionary organizations committed to excellence – converting their dreams into structured, scalable, and world-class realities. Through engineering discipline, advanced technology integration, and execution-driven leadership, we aim to build manufacturing solutions that create ecosystems which are globally competitive, performance-oriented, and future-ready.

Our Services

We provide end-to-end manufacturing solutions in line with global standards – from factory setup and machinery sourcing to process optimization, automation, and compliance integration in Indian furniture manufacturing.

Focused on execution, we build structured, scalable, and globally aligned production systems that deliver real results on the shop floor. **Engineering. Implementation. Performance.**

Our Offerings

Factory Setup & Infrastructure Development

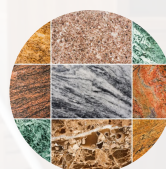

Advanced Machinery & Technology Integration

Wood Management Expertise

Design & Product Development

Marble Sourcing & Supply

Upholstery & Global Material Standards

Digital Printing on MDF/GLASS/FABRIC etc.

Process Engineering & SOP Implementation

Corrugated Box & Industrial Packaging Solutions

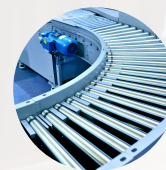

Machine Maintenance & Performance Stability

Compliance, Audit & Quality Assurance

Costing, Inventory & Operational Control

Conveyor Roller LINE

Factory layout

Our Offerings

Wood Seasoning Standards

IBR-fittings

Fire Retardent upholstery material

Vacuum Pump

HVAC

US FR-TB-117 INTERLINEAR

CNC Machine spare

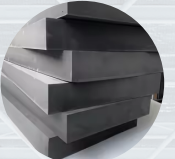

Tap set & Drill bits

Push catchers

BIS certified hardwares

EVA foam

Moisture meter

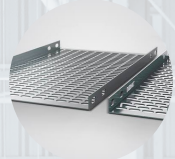

Thickness coating Guage

Hand Tools

Fasteners

Cable tray

MCB/MCCB/ Contactors

Ring main unit

Belts

Bearings

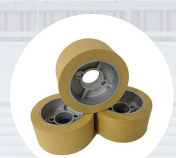

Paint hose

Modern Clamps

Spray pump

Feeder roller

Spray Gun

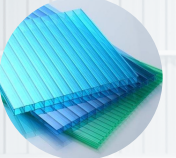

PPE

Signage

Dust Hose

Polycarbonate sheets

Ducting

Filters

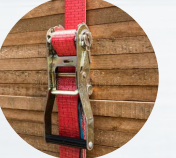

Guages

Pneumatic Air line

Pneumatic fittings

Lashing straps

Auto Drain Valve

Lights

Fork lift tyre

Saw blades

TCT knives

Pneumatic Hand Tools

Toggle clamp

Laser job work

Wood-Mizer Blades: Box of 10

band saw blades

Poer press die

Furniture Felts

Furniture Magnets

Wood Tooling

Springs

Edge bending PVC/NATURAL

Chemicals

Rattan Webbings

Industrial distribution boards

Sensors

Fire Fighting System

Our Offerings

Hand pallet truck

scaffolding

Vacuum cleaner

Floor cleaning machine

ERP software

Exit light

Anti fungal chemical

Legal compliance

D.O.T wood preservative

FSC-EUDR compliance

Factory compliance

Pollution compliance

wood handling compliance

Wood sourcing

Needle detector

Semi automatic Tube cutter

Multi boring heads

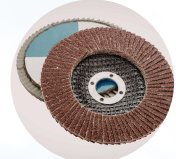

Bush rollers

Metal Fabrication

New product development

Abrasives

Our Team

Mr. Arvind Banergiee

A seasoned engineering professional with 37+ years of experience in industrial transformation and operational excellence. He specializes in Program Management, Industrial Engineering, and CAPEX execution, driving productivity improvement, process optimization, and strategic growth. Known for his structured, results-driven approach, he consistently delivers measurable business outcomes and sustainable value.

Mr. Neeraj Bhargava

A seasoned manufacturing professional with rich experience in R&D and industrial operations, having held senior leadership roles in one of India's leading bearing manufacturing organizations. He specializes in social and technical compliance, including FSC, EUDR, SEDEX, CTPAT, and wood & timber management systems. With a strong focus on sustainability and global standards, he helps organizations build compliant, transparent, and responsible supply chains.

Mr. Suraj Ojha

Senior Engineering & Maintenance Professional with 25+ years of diversified experience across healthcare, hospitality, manufacturing, and industrial sectors. Proven expertise in project execution, plant setup, pre-opening support, utility management, facility operations, and maintenance systems, delivering reliable and efficient operational performance.
