

Gotta Feelin'

Akua Tu

Introspection Album ©2009

Verse 1

Oh my heart is open wide, just for you to slip inside
Puff the cushion dear, yeah yeah yeah
I've been waiting all day long,
Just to play you this here song
You're not just anyone,
So don't you fear

It's an incredible, sensational feeling
Got my seatbelt on and my hands on the steering wheel
You permeate my soul, got my pupils dilating
Don't want to be in control, want to enjoy this feeling

Chorus

Gotta Feeling that I want to live (with you)
A feelin that I want to give (all to you)
I've gotta feelin that I want to run away (with you)
A feelin that I want to stay with you(all of my life)
Gotta Feeling that I want to live (with you)
A feelin that I want to give (all to you)
I've gotta feelin that I want to run away (with you)
A feelin that I want to stay with you(all of my life)

Verse 2

People think I'm going insane,
Why does she keep playing those games
Pass her some tissues, she'll be singing the blues
But they can say their blah dee blahs
Cause in my hand I hold a star
Who love's my rose perfume
There's nothing they can do
