

Mother Nature

Akua Tu

Introspection Album ©2009

Verse 1

Breathless, that's how I feel
Each and every time I see you put the sun to sleep
And fearless, that's how I feel
Because I know in safety, our souls you'll keep

Chorus

And who's to say, when the tide will change
Mother Nature knows the time the place
And who knows, where the trade winds blow
Carrying the voices of the trees on her journey

Verse 2

Seasons they come and go
You bring the Summer Sun, the Spring Buds
Autumn leaves and Winter snow
Creatures from all walks of life
You know where they're coming from
And you know where they go

Chorus

And who's to say, when the tide will change
Mother Nature knows the time the place
And who knows, where the trade winds blow
Carrying the voices of the trees on her journey

Bridge

Mother Nature's the reason why we live
Unconditional is the love you give
What I want to know who takes care of you
Is it a greater love from upon high?
Keeping a watchful eye over you
