

Need Seed for Your Project?

The DeKalb County SWCD offers seed ordering and handling services. There is no additional markup or fee for this service. We also can order companion crop or filler seed for your project. We want you to get the job done right!

If you are working with FSA/NRCS on a project we will check your order to make sure it meets the requirements of your conservation plan. Contact our office for details.

Conservation Planning

A certified conservation planner at the DeKalb County SWCD can work with you on any new or existing project.

For new installations of pollinator habitat under 10 acres, cost-share assistance may be available through the Partners for Conservation state cost-share program.

Options for Seeding

Custom Seeding by DeKalb Co. SWCD

20 ft Valmar Broadcast Air Seeder

This seeder is great for projects big and small. The District has used this seeder on projects up to 100 acres and as small as half an acre.

For projects that call for dormant seedings (Nov. 1st to March 15th in Northern IL) this broadcast seeder provides an even seeding rate that makes for a resilient stand of vegetation. For projects seeded in the spring, the ground will need to be worked up lightly and seeding will need to be incorporated with a drag or rolled.

Base Fee \$250.00 per project

The base fee covers the cost of transportation of equipment to the site and the time it takes to mix, load, and calibrate the machine for the project.

Per Acre Charge for Seeding

- \$50 (0 – 5 acres)
- \$40 (6 – 10 acres)
- \$30 (> 10 acres)

4 ft Kasco No-till Drill

This seeder is great for projects > 5 acres. Used for both native and cool season grass plantings, this seeder is equipped with three seed boxes, wavy cultures, and a roller allowing for light ground disturbance and good seed to soil contact. Excellent for seeding grassed waterways and small interseeding projects.

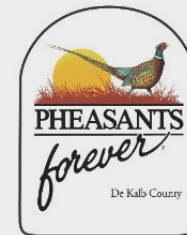

Base Fee \$250.00 per project

**Per Acre Charge for Seeding
\$50**

**An additional \$50 mixing, loading, and calibrating charge will be assessed for all seeding projects at call for multiple planning mixes.*

**Equipment Available to Rent from
DeKalb County PF Chapter**

Tye 10ft No-till Drill

This seeder is for conservation area seeding in DeKalb County. This drill is not available for pasture or hayland seedings.

Delivery fee \$100.00

No fee charged if pick-up and returned by user.

**Recommended Per Acre Donation
\$10**
